Contemporary High Performance Computing Jeffrey S. Vetter, 2017-11-23. HPC is used to solve a number of complex questions in computational and data intensive sciences. These questions include the simulation and modeling of physical phenomena such as climate change, energy production, drug design, global security and materials design, the analysis of large data sets such as those in genome sequencing, astronomical observation and cybersecurity, and the intricate design of engineered products such as airplanes and automobiles. This second volume of **Contemporary High Performance Computing: From Petascale toward Exascale** continues to document international HPC ecosystems including the sponsors and sites that host them. Each chapter is punctuated with a site's flagship system and presents highlights of applications, workloads and benchmarks. Describes hardware architectures, system software and programming systems. Explores storage, visualization and analytics. Examines the data center facility as well as system statistics. Featuring pictures of buildings and systems in production, floorplans and many block diagrams and charts to illustrate system design and performance. **Contemporary High Performance Computing: From Petascale toward Exascale** Volume Two delivers a detailed snapshot of the rich history of practice in modern HPC. This book provides a valuable reference for researchers in HPC and computational science.

Frontiers in Built Environment, editor's picks 2023 Izuru Takewaki, 2024-03-19. Dear readers of **Frontiers in Built Environment**. As the Field Chief Editor for **Frontiers in Built Environment**, I am happy to present this curated selection of papers that have made a significant impact within our community. Among the large number of

submissions that we received these 14 papers represent some of the best published in 2023 the year when the journal attained its first impact factor With many high quality papers to consider in selecting these 14 articles we faced the challenging task of how to include papers from across the 15 distinct sections of the journal whilst at the same time achieving a sense of cohesion to the ebook overall However amidst this diversity we noticed a convergence in our highest quality papers around three pivotal themes that are central to our journal s mission resilience sustainability and technology In this way despite the broad range of topics covered within both our journal and this selection this ebook can truly be considered representative of our journal as a whole These carefully chosen papers encompass high quality original research and comprehensive reviews which also embody the ethos of innovation and excellence that defines our journal As the Field Chief Editor I am thankful to all authors who have enriched our journal with their high caliber work I extend sincere appreciation to the dedicated efforts of our editors and reviewers whose invaluable contributions have been instrumental in shaping Frontiers in Built Environment in 2023
