**Flat Panel Display Manufacturing** Jun Souk, Shinji Morozumi, Fang-Chen Luo, Ion Bita, 2018-07-23 An extensive introduction to the engineering and manufacture of current and next generation flat panel displays This book

provides a broad overview of the manufacturing of flat panel displays with a particular emphasis on the display systems at the forefront of the current mobile device revolution. It is structured to cover a broad spectrum of topics within the unifying theme of display systems manufacturing. An important theme of this book is treating displays as systems which expands the scope beyond the technologies and manufacturing of traditional display panels LCD and OLED to also include key components for mobile device applications such as flexible OLED thin LCD backlights as well as the manufacturing of display module assemblies. Flat Panel Display Manufacturing fills an important gap in the current book literature describing the state of the art in display manufacturing for today's displays and looks to create a reference the development of next generation displays. The editorial team brings a broad and deep perspective on flat panel display manufacturing with a global view spanning decades of experience at leading institutions in Japan, Korea, Taiwan and the USA and including direct pioneering contributions to the development of displays. The book includes a total of 24 chapters contributed by experts at leading manufacturing institutions from the global FPD industry in Korea, Japan, Taiwan, Germany, Israel and USA. Provides an overview of the evolution of display technologies and manufacturing. Treats display products as systems with manifold applications expanding the scope beyond traditional display panel manufacturing to key components for mobile devices and TV applications. Provides a detailed overview of LCD manufacturing including panel architectures, process flows and module manufacturing. Provides a detailed overview of OLED manufacturing for both mobile and TV applications including a chapter dedicated to the young field of flexible OLED manufacturing. Provides a detailed overview of the key unit processes and corresponding manufacturing equipment including manufacturing test, repair of TFT array panels as well as display module inspection, repair. Introduces key topics in display manufacturing science and engineering including productivity, quality, factory architectures and green manufacturing. Flat Panel Display Manufacturing will appeal to professionals and engineers in R&D departments for display related technology development as well as to graduates and Ph.D. students specializing in LCD, OLED other flat panel displays.
