Netflix Same Day Delivery Sign In:

Netflixed Gina Keating, 2012-10-11 Netflix has come a long way since 1997 when two Silicon Valley entrepreneurs Marc Randolph and Reed Hastings decided to start an online DVD store before most people owned a DVD player. They were surprised and elated when launch day traffic in April 1998 crashed their server and resulted in 150 sales. Today Netflix has more than 25 million subscribers and annual revenues above 3 billion. Yet long term success or even survival is still far from guaranteed. Journalist Gina Keating recounts the absorbing fast paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business. First it engaged in a grueling war against video store behemoth Blockbuster transforming movie rental forever. Then it jumped into an even bigger battle for online video streaming against Google, Hulu, Amazon and the big cable companies. Netflix ushered in such innovations as DVD rental by mail, a patented online queue of upcoming rentals and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals. Yet for all its success Netflix is still a polarizing company. Hastings is often heralded as a visionary; he was named Business Person of the Year in 2010 by Fortune even as he has been called the nation's worst CEO. Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever. The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet. Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter, Keating makes this tale as absorbing as it is important.

Online Marketing Richard Gay, Alan Charlesworth, Rita Esen, 2007-03-15 This exciting user friendly textbook provides a colourful and engaging introduction to online marketing. It is suitable for students studying internet marketing, e marketing, e commerce or e business as part of specialised marketing programmes or mainstream business management programmes. From the back cover.

Top Down Innovation Mary J. Cronin, 2014-01-02 This Brief focuses on strategies for innovation. Top Down Innovation discusses the barriers to successful organizational and product innovation, distills the leading theories about how to foster innovation and presents six case studies of well known brands that have succeeded and in one case failed in meeting innovation challenges. Synthesizing the lessons learned from companies that have mastered innovation over time, it provides a new perspective on the role of market leading companies and top management in driving innovation. Since the publication of Clayton Christensen's pioneering Innovator's Dilemma in 1997, the rules of innovation have themselves been transformed. Today innovation frequently starts at the CEO level with a vision that percolates throughout the organization. In contrast to traditional theories of technology disruption, new market entrants and business model innovation, this study concludes that vision and leadership at the top is a decisive factor in successful innovation initiatives.
