It explains the origins of the Pilates method, its transformation into modern Pilates and exactly how it can benefit practitioners. Unlike the traditional method which focuses on constantly holding in the lower abdomen and on extremely effortful movements modern Pilates is firmly based on the functional movement possibilities of the body. The exercises in this book are influenced by developments in therapeutic massage, osteopathy and the Feldenkrais method. Butoh, a Japanese performance art developed in the 1950s and ante and postnatal work.
