**AI in Language Teaching, Learning, and Assessment** Pan, Fang,2024-02-12 The introduction of Artificial Intelligence AI has ignited a fervent academic discourse AI's role is as both a powerful ally and a potential adversary in education. For instance, ChatGPT is a generative AI which mimics human conversation with impressive precision. Its capabilities span the educational spectrum from answering questions and generating essays to composing music and coding. Yet as with any innovation, its advent has sparked a spirited academic dialogue. AI in Language Teaching Learning and Assessment seeks to address these concerns with rigor and thoughtfulness. It explores the undeniable drawbacks of AI in language education and offers strategic insights into their prevention. It scrutinizes the resources and safeguards required to ensure the ethical and secure integration of AI in academic settings. This book lays out the multifaceted benefits of incorporating AI into language teaching learning and assessment. Its chapters dissect the transformative impact of AI on pedagogy, teaching materials, assessment methodologies, applied linguistics, and the broader landscape of language education development. This book is a valuable resource for language learners, educators, researchers, and scholars alike. It beckons to those who are keen on exploring and implementing AI in education as well as AI developers and experts seeking to bridge the chasm between technology and language education.
