Impact and implications of AI methods and tools for the future of education Kingsley Okoye, Samira Hosseini, Kamal Kant Hiran, Julius Nganji, 2024-06-07 The congruence of technology such as AI and its use for education can help transform the different pedagogical practices and future of education. Educational organizations like The UNESCO and The World Bank are already calling for research and development oriented projects and creation mobilization of technological initiatives on how to re imagine education and operationalize the use of digital technologies for its purpose the Digitized Education. Those goals mean or include methodological approaches and wide adoption of the AI methods in fostering education in the classroom or learning environments. Also noteworthy is the fact that digitized education is now an inevitable and integral element to achieving the global sustainable development goals SDGs particularly the SDG4 that promotes quality of education.

Turning Point Jürgen Müller, 2024-12-13 Modern information technology permeates and transforms our world far more intensely than most of us realize. The book describes its origin history and essential drivers. It elaborates on the substantial importance the new world power of IT has gained for our social economic and political lives. It provides the reader with interesting easily understandable and balanced guidance on a complex topic. It highlights major development lines and explains concepts such as artificial intelligence algorithms and blockchains.
