Hollenbeck,2015-02-23 The papers included in this volume represent the most current research and knowledge available about student loans and repayment It serves as a valuable reference for researchers and policymakers who seek a deeper understanding of how why and which students borrow for their postsecondary education how this borrowing may affect later decisions and what measures can help borrowers repay their loans successfully **House of Commons - Committee of Public Accounts: Student Loan Repayments - HC 886** Great Britain: Parliament: House of Commons: Committee of Public Accounts,2014-02-14 There is at present around 46 billion of outstanding student loans on the Government s books and this figure is set to rise dramatically to 200 billion by 2042 in 2013 prices By 2042 there will be an estimated 6.5 million borrowers of student loans At the same time estimates for the amount of loans that will not be repaid are also rising and the Government assumes that 35-40% of outstanding loans will never be repaid That is some 16 billion to 18 billion on the current debt of 46 billion and 70 billion to 80 billion on the estimated value of student loans by 2042 The Department for Business Innovation Skills the Department is not doing enough to secure value for money from its collection arrangements The Department is unable to accurately forecast student loan repayments and does not have a sufficient understanding of the likely future cost of non repayment to the taxpayer The Student Loans Company is not doing enough to ensure that it

identifies and collects all the repayments due given the substantial size of the financial assets involved and will need to demonstrate value for money from the proposed sale of the student loans book Student Loan Repayment Guide, 2006

National Audit Office - Department for Business, Innovation and Skills: Student Loan Repayments - HC 818 Great Britain: National Audit Office, 2013-11-28 Until the Department for Business Innovation and Skills BIS has a robust strategy for maximizing the collection performance of student loans and improves its information on borrowers it will not be well placed to secure value for money BIS forecasts that the total value of outstanding student loans will increase from 46 billion in 2013 to approximately 200 billion by 2042 in 2013 prices The number of borrowers due to repay is projected to increase from 3 million in 2012 13 to 6 5 million by 2042 The loan book is therefore becoming a substantial public asset BIS and its collection partners HM Revenue Customs and the Student Loans Company SLC work together in a joined up way In 2012 13 they collected 1 4 billion in student loan repayments at a cost of 27m BIS needs to make better use of data to support its collection strategy and improve its understanding of where it could invest to maximise the collection value of the loan book In designing how student loans would work BIS anticipated that a proportion of the loans would not be repaid However BIS has not set an annual target for the amount to be collected because repayments are affected by graduate earnings and economic factors outside its direct control Annual repayment forecasts are consistently higher than amounts collected While many borrowers may not be in employment BIS and the SLC have carried out little analysis to establish how many may be working overseas or the level of repayments that may be missed **Student Loan Repayment Guide** Colorado Student Loan Program, 2001

Sunk Cost Jillian Berman, 2025-04-08 Exposes the forgotten origins of the student loan system how politicians have attempted to fix it and the life altering damage borrowers face Student loan horror stories are a dime a dozen But students today are faced with a seemingly insurmountable paradox Research consistently shows that the clearest viable option to financial stability is a college degree But if and when Americans decide to pursue diplomas student loan payments quickly follow and even after securing full time employment many borrowers struggle to make ends meet for years In Sunk Cost journalist Jillian Berman explores how the nation s student loan program went from a well intentioned initiative aimed at helping low and middle income students afford college to one that traps borrowers in long term debt Berman interviewed dozens of borrowers and policymakers and dug into the archives to unearth the true causes of the student loan problem A couple of generations ago policy makers generously subsidized Americans college educations because they knew it would be advantageous for the entire country a more educated population meant better quality of life for all But today higher education is viewed as an individual goal so students and their families are expected to be on the hook for it themselves Berman explains how this enormous shift happened which industries benefit from it and what it means for college going Americans today She shares real life stories of college graduates who are being crushed under some of the harshest consequences of the student loan system These borrowers pursued higher education in hopes of a better life and yet some have been trapped in debt for decades making it difficult to put food on the table much less imagine a life beyond debt By connecting personal accounts to the policy history of student loans Berman makes clear that if American society continues to push students toward higher education but fails to truly subsidize it the financial strain will become unbearable for all but the

most privileged The current system is broken but Berman proposes that significant changes are possible and will require political will from state lawmakers and Congress along with a philosophical shift to tackle one of the largest consumer finance challenges of our time
