Cheeseman, 2012-05-05 **The Late Victorian Folksong Revival** E. David Gregory, 2010-04-13 In *The Late Victorian Folksong Revival* *The Persistence of English Melody 1878-1903* E. David Gregory provides a reliable and comprehensive history of the birth and early development of the first English folksong revival. Continuing where Victorian Songhunters his first book left off Gregory systematically explores what the Late Victorian folksong collectors discovered in the field and what they published for posterity identifying differences between the songs noted from oral tradition and those published in print. In doing so he determines the extent to which the collectors distorted what they found when publishing the results of their research in an era when some folksong texts were deemed unsuitable for polite ears. The book provides a reliable overall survey of the birth of a movement tracing the genesis and development of the first English folksong revival. It discusses the work of more than a dozen song collectors focusing in particular on three key figures the pioneer folklorist in the English west country Reverend Sabine Baring Gould Frank Kidson who greatly increased the known corpus of Yorkshire song and Lucy Broadwood who collected mainly in the counties of Sussex and Surrey and with Kidson and others was instrumental in founding the Folk Song Society in the late 1890s. The book includes copious examples of the song tunes and texts collected including transcriptions of nearly 300 traditional ballads broadside ballads folk lyrics occupational songs carols shanties and national songs demonstrating the abundance and high quality of the songs recovered by these early collectors **Victorian Songhunters** E. David Gregory, 2006-04-13 *Victorian Songhunters* is a pioneering history of the rediscovery of vernacular song street songs that have entered oral tradition and have been passed from generation to generation in England during the late Georgian and Victorian eras. In the nineteenth century there were four main types of vernacular song ballads folk lyrics occupational songs and national songs. The discovery collecting editing and publishing of all four varieties are examined in the book and over seventy five selected examples are given for illustrative purposes. Key concepts such as traditional balladry broadside balladry folksong and national song are analyzed as well as the complicated relationship between print and oral tradition and the different methodological approaches to ballad and song editing. Organized chronologically *Victorian Songhunters* sketches the history of English song collecting from its beginnings in the mid-seventeenth century focuses on the work of important individual collectors and editors such as William Chappell Francis J Child and John Broadwood examines the growth of regional collecting in various counties throughout England and demonstrates the considerable efforts of two important Victorian institutions the Percy Society and its successor the Ballad Society. The appendixes contain discussions on interpreting songs an assessment of relevant secondary sources and a
