Odihi, 2016-09-23 Adsensory technology presupposes a neoliberal entrepreneurial self as an integral feature of its biopolitical financialisation of healthcare regimes According to Michel Foucault neoliberalism is indebted to the endeavour of its self-disciplined subjects investing human capital in a self-regulated entrepreneurial pursuit of responsible healthcare and well-being Primarily informed by social network analytics and virtual ethnographic observations this book identifies the biopolitical basis of adsensory technologies It argues that a paradoxical feature of adsensory technologies dissimulating that there is nothing Jean Baudrillard is the proliferation of risk This is because the dissimulation of nothing opens up the possibility that everything can be a risk in so far as the type of event it falls under can be treated according to the principles of insurance technology Francois Ewald Adsensory wearable technologies are called upon as a strategy of deterrence Jean Baudrillard to indemnify capitalism's production of signs which dissimulate their simulation In a context in which much that was certain now feigns its own existence the insurance professed by adsensory technologies provides for an unrealisable guarantee against indefinable unknowable risks Based also on case studies of European Court of Justice personal finance insurance rulings this book engages critically with the neoliberal construct of the entrepreneurial lifestyle insurance subject Social network analytics are utilised here to map bio technology onto neoliberal regimes of financialised well-being and healthcare provision In so doing the book situates adsensory technologies within the marketising healthcare management

programmes that are currently aligning the neoliberal reengineering of health and well being citizenship with the biopolitical healthcare financialisation of populations Paradoxically in their endeavour to actor network virtual well being health communities adsensory technologies proliferate the individuating marketised conditions of neoliberal self regulating entrepreneurialism This gives rise to aleatory materialist dialectics of financialised surveillance far exceeding the regulatory time and space modalities of Foucauldian panoptics and Mathiesen synoptics Adsensory technologies are integral to a seismic transformation in the cultural economies of time presently eliding digital advertising and insurantal technologies Axiomatic with the synchronic times of the adsensory technologies valorised by lifestyle insurance much riskier asynchronic embodied times transgressively dissimilating the limits of financialisation are beginning to emerge Game Design Secrets Wagner James Au,2012-10-16 Design great Facebook iOS and Web games and learn from the experts what makes a game a hit This book shows how to put into action the proven design and marketing techniques from the industry s best game designers who all started on a small scale **Backroads Boss Lady** Jessi Roberts,2019-03-05 Read the inspiring story of a mother of four who faced down her hard past poverty and self doubt to create the life she dreamed of including owning her own multi million dollar business in this book that s filled with grit humility common sense advice and entrepreneurial wisdom Lee Woodruff 1 bestselling author New Plymouth Idaho Population 1536 It doesn t look like much from Rural Route 30 but it was here in this quiet town that Jessi Roberts created something unexpected the kind of life she always wanted and a multi million dollar for rural by rural business empire The business is Cheekys which started with 6 purses and a tanning bed Now in her book Jessi shows how she grew one small store hurdle by hurdle into a national clothing and accessories brand with a 1 5 million strong community Best of all she did it by standing tall for her values always be kind lift up the next gal and treat employees and customers like family A personal story filled with life and business tips BACKROADS BOSS LADY is about embracing your passion even when others don t see value in it or you and about putting food on the table and believing in yourself Brimming with authenticity it gives the warts and all love it despite it skinny on rural life community and contentment without compromise **A Simple Guide to Facebook and Social Networking** Chris Pichereau,2011-02 More than one billion people worldwide use Facebook to connect with family friends and business colleagues and update them on their daily lives This eminently accessible guide teaches readers how to enjoy and get the most out of the world s largest social media site Among the topics discussed are how to set up a Facebook account how to create a personalized profile page how to set up a business or fan page how to post photos videos and links and how to protect personal information The book also delves into the nuances of finding old and new friends on the site as well as understanding exactly what others can and cannot see on a user s profile page wall messages and news feed Additional sections explain how to get started with Facebook games and other community building tools and how to remove unwanted updates from a news feed
