## **Sublime Historical Experience:**

*Sublime Historical Experience* F. R. Ankersmit, 2005 Why are we interested in history at all Why do we feel the need to distinguish between past and present This book investigates how the notion of sublime historical experience complicates and challenges existing conceptions of language truth and knowledge    **Sublime Historical Experience** F. R. Ankersmit, 2005 Why are we interested in history at all Why do we feel the need to distinguish between past and present This book investigates how the notion of sublime historical experience complicates and challenges existing conceptions of language truth and knowledge    **Sublime Historical Experience** F.R. Ankersmit, 2022 Why are we interested in history at all Why do we feel the need to distinguish between past and present In this book the author argues that the past originates from an experience of rupture separating past and present Think of the radical rupture with Europe's past that was effected by the French and the Industrial Revolutions Sublime Historical Experience investigates how the notion of sublime historical experience complicates and challenges existing conceptions of language truth and knowledge These experiences of rupture are paradoxical since they involve both the separation of past and present and at the same time the effort to overcome this separation in terms of historical knowledge The experience unites feelings of loss pain with those of love satisfaction and thus is in agreement with how sublime experience is ordinarily defined The experience is also precognitive since it precedes the possibility of historical knowledge As such it is a challenge to traditional conceptions of the relationship between experience and truth or language It compels us to disconnect the notions of experience and truth    **Manifestos for**

**History** Sue Morgan, Keith Jenkins, Alun Munslow, 2007-09-12 Written by some of the world's leading historians and theorists of history Manifestos for History draws together a series of manifestos that address the question of what kinds of histories we ought to be considering and making in and for the twenty first century With a foreword by Joanna Bourke and an afterword by Hayden White these manifestos critical innovative reflexive inspirational are absolutely essential reading not just for those embarking on the study of history but for all those who would think seriously about the nature of history in its present and possible future forms This collection establishes a benchmark for all future considerations upon the discourse of history

**Romantic Pasts** Porscha Fermanis, 2022-04-04 Working against the long standing belief that romantic era history is primarily sentimental Romantic Pasts argues that historians from Mary Wollstonecraft to Thomas Carlyle developed a new kind of cognitive or psychological historicism that was as much concerned with motive as with affect Recognising that feelings could be a viable object of historical study as well as a sentimental or affective mode these historians increasingly reconfigured psycho physiological and behavioural processes as situated and historically variable phenomena that could reflect changes in social and historical contexts Weaving together literary criticism the history of emotion theories of the novel and philosophies of history this book rethinks both the paradigms of resurrection and revivification that have come to stand for romantic history and that history's place within the development of modern history    **The Routledge**

**Companion to History and the Moving Image** Marnie Hughes-Warrington, Kim Nelson, Mia E.M. Treacey, 2023-11-07 The Routledge Companion to History and the Moving Image takes an interdisciplinary approach to understanding history in moving images. It engages this popular and dynamic field that has evolved rapidly from film and television to digital streaming into the age of user created content. The volume addresses moving image history through a theoretical lens modes and genres, representation, race and identity and evolving forms and formats. It brings together a range of scholars from across the globe who specialize in film and media studies, cultural studies, history, philosophy of history and education. Together the chapters provide a necessary contemporary analysis that covers new developments and questions that arise from the shift to digital screen culture. The book examines technological and ethical concerns stemming from today's media landscape but it also considers the artificial construction of the boundaries between professional expertise and amateur production. Each contributor's unique approach highlights the necessity of engaging with moving images for the academic discipline of history. The collection, written for a global audience, offers accessible discussions of historiography and a compelling resource for advanced undergraduates and postgraduates in history, film and media studies and communications. Both Chapter 17 and the Afterword of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license.

[The Bible Among Ruins](#) Daniel Pioske, 2023-10-12 Biblical writers lived in a world that was already ancient. The lands familiar to them were populated throughout by the ruins of those who had lived two thousand years earlier. References to ruins abound in the Hebrew Bible, attesting to widespread familiarity with the material remains by those who wrote these texts. Never, however, do we find a single passage that expresses an interest in digging among these ruins to learn about those who lived before. Why? In this book, Daniel Pioske offers the first study of ruination in the Hebrew Bible. Drawing on scholarship in biblical studies, archaeology, contemporary historical theory and philosophy, he demonstrates how the ancient experience of ruins differed radically from that of the modern era. For biblical writers, ruins were connected to temporalities of memory, presence and anticipation. Pioske's book recreates the encounter with ruins as it was experienced during antiquity and shows how modern archaeological research has transformed how we read the Bible.

**Genesis and Validity** Martin Jay, 2021-11-12 There is no more contentious and perennial issue in the history of modern Western thought than the vexed relationship between the genesis of an idea and its claim to validity beyond it. Can ideas or values transcend their temporal origins and overcome the sin of their original context and, in so doing, earn abiding respect for their intrinsic merit? Or do they inevitably reflect them in ways that undermine their universal aspirations? Are discrete contexts so incommensurable and unique that the smooth passage of ideas from one to the other is impossible? Are we always trapped by the limits of our own cultural standpoints and partial perspectives, or can we somehow escape their constraints and enter into a fruitful dialogue with others? These persistent questions are at the heart of the discipline known as intellectual history, which deals not only

with ideas but also with the men and women who generate disseminate and criticize them The essays in this collection by one of the most recognized figures in the field address them through engagement with leading intellectual historians Hans Blumenberg Quentin Skinner Hayden White Isaiah Berlin Frank Ankersmit as well other giants of modern thought Max Weber Emile Durkheim Georg Simmel Walter Benjamin Theodor Adorno and Georg Lukcs They touch on a wide variety of related topics ranging from the heroism of modern life to the ability of photographs to lie In addition they explore the fraught connections between philosophy and theory the truth of history and the truthfulness of historians and the weaponization of free speech for other purposes New Critical Thinking Julian Wolfreys, 2017-06-02 Introduces advanced students of literature to the latest critical thinkingFollowing a scene setting Introduction which reflects on the state of atheory today the 11 chapters in this volume introduce new areas of critical thinking which go beyond the standard aisms Literary Reading in a Digital Age Critical Making in the Digital Humanities Thing Theory Memory Work and Criticism Body Objects Technology Criticism and aThe Animal Multimodality and Linguistic Approaches to Literary Study Critical and Creative Practice
