Chapter 3 describes each school's curricular structure whereby students are placed in various instructional cohorts. Each cohort receives a different curriculum determined by the department level tracking system. Sample curricular maps from the schools are analyzed. Chapter 4 outlines the processes used to place and monitor students. In chapter 5 the effects of the policies and practices found are compared in terms of the academic programs available to cohorts of students. The data collection plan for the study and sample student academic programs are provided in the appendices.
