**The Biblical Canon Lists from Early Christianity** Edmon L. Gallagher,John D. Meade,2017-10-26 The Bible took shape over the course of centuries and today Christian groups continue to disagree over details of its contents The differences among these groups typically involve the

Old Testament as they mostly accept the same 27 book New Testament An essential avenue for understanding the development of the Bible are the many early lists of canonical books drawn up by Christians and occasionally Jews Despite the importance of these early lists of books they have remained relatively inaccessible This comprehensive volume redresses this unfortunate situation by presenting the early Christian canon lists all together in a single volume The canon lists in most cases unambiguously report what the compilers of the lists considered to belong to the biblical canon For this reason they bear an undeniable importance in the history of the Bible The Biblical Canon Lists from Early Christianity provides an accessible presentation of these early canon lists With a focus on the first four centuries the volume supplies the full text of the canon lists in English translation alongside the original text usually Greek or Latin occasionally Hebrew or Syriac Edmon L Gallagher and John D Meade orient readers to each list with brief introductions and helpful notes and they point readers to the most significant scholarly discussions The book begins with a substantial overview of the history of the biblical canon and an entire chapter is devoted to the evidence of biblical manuscripts from the first millennium This authoritative work is an indispensable guide for students and scholars of biblical studies and church history *New Documents Illustrating Early Christianity, 9* Stephen Llewelyn, 2002-10-28 This new volume in the New Documents series continues the efforts of the Ancient History Documentary Research Centre at Macquarie University to make available Greek inscriptions and papyri that shed light on the Graeco Roman world the context in which the Christian church developed Volume 9 includes a selection of secular texts as well as documents directly relating to Judaica and ecclesiastica Notable entries include The Ecumenical Synod of Dionysiac Artists The Elders and Rulers Archons of the Jews and Fragment from the Unknown Gospel Papyrus Egerton 2 Texts and translations are printed side by side full indices and references are also provided Since it is being published in honor of Paul Barrett this volume includes a special preface by Alanna Nobbs an introductory reflection on Barrett s career and New Testament history by E A Judge and a bibliography of Barrett s work compiled by C B Forbes

*Combining Gospels in Early Christianity* Jacob A. Rodriguez, 2023-10-09 In this study Jacob A Rodriguez investigates which gospels tended to keep company with one another in early Christian reading practices By engaging the dynamics of gospel combinations in the Gospel of Thomas the Epistula Apostolorum the Diatessaron second century Christian authors ranging from Papias to Clement of Alexandria and early gospel manuscripts Rodriguez identifies a center of gravity in early Christian gospel reading consisting of the Synoptics and John While second century Christians do not use the terms canonical or noncanonical the gospels we now know as canonical captivated their literary imagination in a manner unparalleled by any other Jesus books The author offers a rigorous philological literary critical text critical artifactual and theological reconstruction of early Christian gospel reading culture **New Testament and Christian Apocrypha** Francois Bovon, 2009 This volume of Kleine Schriften reflects Francois Bovon s two major fields of research Luke Acts on the one hand and early Christian Apocrypha on the other He insists on the ethical and missionary practices of the early Christian

communities The apostle Paul's ethical concern is presented not as an opposition between good and evil but as a crescendo from the good to the best The authority of John the author of the Book of Revelation is described in a nonhierarchical way as the care of a brother for his brothers and sisters rather than of a father Women ministry is attested in recently discovered portions of the Acts of Philip This collection of essays shows also how doctrinal positions were reached in the middle of strong tensions Such is the witness of the Fragment Oxyrhynchus 840 in favor of a spiritual purification Francois Bovon is also attentive to the reception of the earliest Christian documents in the Late Antiquity period As a whole he describes aspects of early Christianity in its variety but also in its unity

**New Testament Christianity in the Roman World** Harry O. Maier,2018-09-27 What did it mean to be a Christian in the Roman Empire In one of the inaugural titles of Oxford s new Essentials in Biblical Studies series Harry O Maier considers the multilayered social contexts that shaped the authors and audiences of the New Testament Beginning with the cosmos and the gods Maier presents concentric realms of influence on the new religious movement of Christ followers The next is that of the empire itself and the sway the cult of the emperor held over believers of a single deity Within the empire early Christianity developed mostly in cities the shape of which often influenced the form of belief The family stood as the social unit in which daily expression of belief was most clearly on view and finally Maier examines the role of personal and individual adherence to the religion in the shaping of the Christian experience in the Roman world In all of these various realms concepts of sacrifice belief patronage poverty Jewishness integration into city life and the social constitution of identity are explored as important facets of early Christianity as a lived religion Maier encourages readers to think of early Christianity not simply as an abstract and disconnected set of beliefs and practices but as made up of a host of social interactions and pluralisms Religion thus ceases to exist as a single identity and acts instead as a sphere in which myriad identities co exist Early Christian Voices David Warren,Ann Graham Brock,David Pao,2021-10-01 This collection of studies in honor of Fran ois Bovon highlights the rich diversity found within early expressions of Christianity as evidenced in ancient texts traditions symbols and motifs Old labels like apocrypha or heresy that for centuries have suppressed much of this evidence are removed previous assumptions are questioned and the old data are examined afresh along with the latest discoveries The studies fall into six areas ancient gospels acts early Christian movements ancient interpretations art and
