Writing Immigration Marcelo Suarez-Orozco,Vivian Louie,Roberto Suro,2011-09 No one in the news media should write or talk about immigration without reading Writing Immigration Lawrence O'Donnell Host of MSNBC The Last word with Lawrence O'Donnell I cannot help but applaud the idea for this book especially given the caliber of the editors The communication between social scientists and journalists is often not smooth and there is a strong rationale for attempting to bridge this divide on the issues surrounding immigration which appear at times to divide the American public into opposing camps Richard Alba author of Blurring the Color Line The New Chance for a More Integrated America Bringing together academics and journalists inviting them to talk with not at one another is an enterprise as important as it is rare When the participants in the conversation are as lively provocative and insightful as the contributors to Writing Immigration the result is a real treat For anyone who wants to understand how immigration is molding the nation's future this book is an indispensable read David Kirp is a professor at the Goldman School of Public Policy at the University of California at Berkeley and former associate editor of the Sacramento Bee A compelling book on an extremely timely topic from writers with a great capacity to spin a story Professor Patricia Gondara Co-Director of The Civil Rights Project at UCLA Academics and journalists share the weighty responsibility of helping the public see where our ship is headed When it comes to immigration we need a cure for myopia and this important timely book is it a map for thinking about immigration in the round It will elevate the public conversation Danielle Allen UPS Foundation Professor of Social Science at the Institute for Advanced Study Immigration in the United States is our past our present and very likely our future The brilliance of this volume is that it looks both at its subject immigration through the very different lenses of journalism and academia juxtaposing their styles and approaches to explore one of the central policy dilemmas of our day the integration of immigrants not all of them legal and their children into American society and economy while critiquing the role of media and scholarly observers who shape our understanding of immigration as well Michael Jones Correa Professor of Government Cornell University *Class Meetings* Donna Styles,2001 Class meetings are a popular way of generating student participation in all aspects of school and learning This innovative book shows teachers how to use class meetings to set the tone for a respectful classroom involve students in decision making provide opportunities for student leadership develop effective problem solving strategies and reduce behavior problems Teachers will find everything they need to make class meetings an integral part of classroom learning

WARFARE: How to Win the War to Educate Our Children Denny Geraghty, 2017-05-06
Teachers Ever Feel Like You're Losing the War to Educate Your Students
In our current educational climate of Common Core test scores and teacher evaluations have you ever wondered what about the students? Even though graduation rates have increased in recent years, are the young men and women in our classrooms truly engaged in the learning process? Trench Warfare: How to Win the War to Educate Our Children is an exploration of the why no one wants to talk about for our continued failures in education. It doesn't have to do with class or race. It actually has to do with simple economic theory of supply and demand. Why are students not demanding a better education? In this remarkable and important book, Denny Geraghty not only identifies the real problem in education but also offers a solution by developing a thesis supported by irrefutable economic laws. Current teachers and aspiring teachers would be well advised to read this groundbreaking book. Linda Gordon, PHD Principal, Denver Public School and Adams 12 Five Star School Districts Education Professor, Regis University, Denver, Colorado. How do you get the students themselves interested in what they're learning? An engaged, interested student is going to learn, is going to do better on tests, is going to graduate and do his or her alma mater proud. But how do you really do that? Discover ways to keep your students interested. Read Trench Warfare and apply the simple wisdom imparted by a teacher who still cares.

This is a cautionary tale told by Ms. Fly, who is well into her beloved professional career. Unfortunately, she notices that fellow faculty and administrators seemingly did not get the memo about bullying and its destruction of schools as a safe place. Ms. Fly, who is usually humorous and lighthearted, was deeply concerned about the memo. The topic sparks her curiosity about escalating hostility in today's American schools. Although she had been recently diagnosed with a compromising medical condition, Ms. Fly could not resist her need to journey into the higher expectations of pedagogy and humanity. Looking at her own safe place work environment, Ms. Fly falls back on her deepest convictions: perseverance, truths, and hard work. She must do something to rid the toxic notion of bullying and its devastating effects on schools in America. Her quest is engaging, interactive, and inspirational.
