related professional practice Beginning with ways to think about homelessness the book guides the reader through the important studies and findings as they relate to school social workers and other related professionals It provides readers with a detailed and thoughtful description of important policies that shape practice with homeless students and offers guidance on assessing perceived policy implementation *Time, Law, and Change* Sofia Ranchordás, Yaniv Roznai, 2020-04-16 Offering a unique perspective on an overlooked subject the relationship between time change and lawmaking this edited collection brings together world leading experts to consider how time considerations and social political and technological change affect the legislative process the interpretation of laws the definition of the powers of the government and the ability of legal orders to promote innovation Divided into four parts each part considers a different form of interaction between time and law and change The first part offers legal theoretical and historical perspectives on the relationship between time and law and how time shaped law and influences legal interpretation and constitutional change The second part offers the reader an analysis of the different ways in which courts approach the impact of time on law as well as theoretical and empirical reflections upon the meaning of the principle of legal certainty legitimate expectations and the influence of law over time The third part of the book analyses how legislation and the legislative process addresses time and change and the various challenges they create to the legal order The fourth and final part addresses the complex relationship between fast paced technological change and the regulation of innovations 1984 and Philosophy Ezio Di Nucci, Stefan Storrie, 2018-05-18

Although the year 1984 is hurtling back into the distant past Orwell s novel Nineteen Eighty Four continues to have a huge readership and to help shape the world of 2084 Sales of Orwell s terrifying tale have recently spiked because of current worries about alternate facts post truth and fake news 1984 and Philosophy brings together brand new up to the minute thinking by philosophers about Nineteen Eighty Four as it relates to today s culture politics and everyday life Some of the thinking amounts to thoughtcrime but we managed to sneak it past the agents of the Ministry of Truth so this is a book to be read quickly before the words on the page mysteriously transform into something different Who s controlling our lives and are they getting even more levers to control us Is truth objective or just made up What did Orwell get right and did he get some things wrong Are social media opportunities for liberation or instruments of oppression How can we fight back against totalitarian control Can Big Brother compel us to love him How does the language we use affect the way we think Do we really need the unifying power of hate Why did Orwell make Nineteen Eighty Four so desperately hopeless Can science be protected from poisonous ideology Can we really believe two contradictory things at once Who surveils the surveilors
