Every Young Child a Reader Sharan A. Gibson, Barbara Moss, 2016 This resource will help K-2 teachers revitalize and restructure their classroom literacy instruction based on Marie Clay's groundbreaking and transformative literacy processing theory. Clay's theories have created literacy success for more than 2 million struggling first grade readers in the United States and internationally through the Reading Recovery program. This practical volume gives primary grade teachers specific suggestions for using these principles and includes rich, robust instructional examples to ensure that all children meet new and rigorous standards in all facets of literacy learning. Replete with explicit depictions of classroom practice, the book addresses the following critical aspects of K-2 literacy instruction: Teaching foundational skills in brief skills lessons and as children learn strategic activity to read and write text; Teaching for children's fast progress in increasingly complex literacy tasks; Understanding the role of complex frustration instructional familiar and easy texts in reading instruction; Teaching for knowledge building comprehension and writing for narrative and informational text. Reader friendly chapters include Focus questions to target readers' anticipation of topics discussed; Illustrative examples of powerful teacher student interaction; Connections between Clay's comprehensive theory of children's literacy development; literacy standards and children's fast progress to literacy proficiency. The combination of Marie Clay's research and theory with the authors' understanding of these principles in today's classroom is what sets this book apart. Lisa Lenhart, director, Center for Literacy Curricular Instructional Studies, The University of Akron. Gibson and Moss provide a resource for classroom teachers to support the continued learning of all their students, especially those who need an aware and skilled teacher to keep them on track across the primary grades. Robert M. Schwartz, professor, Oakland University and trainer of teacher leaders, Reading Recovery Center for Michigan. This comprehensive and well-designed book will be an excellent professional development resource for classroom teachers, Reading Recovery teachers, literacy coaches, specialists, and site administrators. Kathleen Brown, Reading Recovery teacher leader, Long Beach Unified School District, CA. I am eager to use this book with my colleagues as we work to transform early literacy learning in our primary classrooms. Terry MacIntyre, Reading Recovery teacher leader, Boulder Valley School District, CO.

What Makes Day and Night Franklyn M. Branley, 1986-03-26 Accompanied by NASA photographs and Dorros's colorful, lively drawings, the text explains the Earth's rotation in clear and simple terms. An experiment using a lamp as the sun further clarifies the principles introduced.

BL Gravity Is a Mystery Franklyn M. Branley, 2007-05-29 What goes up must come down. Everybody knows that. But what is it that pulls everything from rocks to rockets toward the center of the earth? It's gravity. Nobody can say exactly what it is, but gravity is there, pulling on everything all the time. With the help of an adventurous scientist and his fun-loving dog, you can read and find out about this mysterious force.

Awakening Children's Minds Laura E. Berk, 2004-04-06 Parents and teachers today face a swirl of conflicting theories about child rearing and educational practice. Indeed, current guides are contradictory, oversimplified, and at odds with current scientific

knowledge Now in Awakening Children's Minds Laura Berk cuts through the confusion of competing theories offering a new way of thinking about the roles of parents and teachers and how they can make a difference in children's lives This is the first book to bring to a general audience in lucid prose richly laced with examples truly state of the art thinking about child rearing and early education Berk's central message is that parents and teachers contribute profoundly to the development of competent caring well adjusted children In particular she argues that adult child communication in shared activities is the wellspring of psychological development These dialogues enhance language skills reasoning ability problem solving strategies the capacity to bring action under the control of thought and the child's cultural and moral values Berk explains how children weave the voices of more expert cultural members into dialogues with themselves When puzzling difficult or stressful circumstances arise children call on this private speech to guide and control their thinking and behavior In addition to providing clear roles for parents and teachers Berk also offers concrete suggestions for creating and evaluating quality educational environments at home in child care in preschool and in primary school and addresses the unique challenges of helping children with special needs Parents Berk writes need a consistent way of thinking about their role in children's lives one that can guide them in making effective child rearing decisions Awakening Children's Minds gives us the basic guidance we need to raise caring thoughtful intelligent children
