## **State Punishment State Punishment:**

**Rights Forfeiture and Punishment** Christopher Heath Wellman, 2017 In *Rights Forfeiture and Punishment* Christopher Heath Wellman argues that those who seek to defend the moral permissibility of punishment should shift their focus from general justifying aims to moral side constraints On Wellman's view punishment is permissible just in case the wrongdoer has forfeited her right against punishment Responsible Citizens, Irresponsible States Avia Pasternak, 2021 This book offers an in depth analysis of a question of both philosophical and political import should citizens pay for their state's wrongdoings States are often made to pay compensations for their misdeeds However it is their citizens who through taxation end up bearing the costs Essentially are states justified in passing the buck to their populations The book offers a fresh justification for citizens' duties to share their state's responsibilities Avia Pasternak combines comparative politics and public international law defining and setting limits on what real world democratic and authoritarian states can demand of their citizens *Remorse, Penal Theory and Sentencing* Hannah Maslen, 2015-04-30 This monograph addresses a contested but under discussed question in the field of criminal sentencing should an offender's remorse affect the sentence he or she receives Answering this question involves tackling a series of others is it possible to justify mitigation for remorse within a retributive sentencing framework Precisely how should remorse enter into the sentencing equation How should the mitigating weight of remorse interact with other aggravating and mitigating factors Are there some offence or offender characteristics that preclude remorse based mitigation Remorse is recognised as a legitimate mitigating factor in many sentencing regimes around the world with powerful effects on sentence severity Although there has been some discussion of whether this practice can be justified within the literature on sentencing and penal theory this monograph provides the first comprehensive and in depth study of possible theoretical justifications Whilst the emphasis here is on theoretical justification the monograph also offers analysis of how normative conclusions would play out in the broader context of sentencing decisions and the guidance intended to structure them The conclusions reached have relevance for sentencing systems around the world **Reports of Cases Determined in the Supreme Court of the State of Missouri** Missouri. Supreme Court, 1904 **The Revised Statutes, Codes and General Laws of the State of New York** New York (State)., 1890 State Punishment Nicola Lacey, 2012-10-12 Nicola Lacey presents a new approach to the question of the moral justification of punishment by the State She focuses on the theory of punishments in context of other political questions such as the nature of political obligation and the function and scope of criminal law Arguing that no convincing set of justifying reasons has so far been produced she puts forward a theory of punishments which places the values of the community at its centre **Report in Favor of the Abolition of the Punishment of Death by Law** John Louis O'Sullivan, New York (State). Legislature. Assembly. Select Committee on Capital Punishment, 1841 Record of the Constitutional Convention of the State of New York, 1915 New York (State). Constitutional Convention, 1915 Philosophical Foundations of Criminal Law R.

A. Duff, Stuart Green, 2013-01-24 Twenty five leading contemporary theorists of criminal law tackle a range of foundational issues about the proper aims and structure of the criminal law in a liberal democracy The challenges facing criminal law are many There are crises of over criminalization and over imprisonment penal policy has become so politicized that it is difficult to find any clear consensus on what aims the criminal law can properly serve governments seeking to protect their citizens in the face of a range of perceived threats have pushed the outer limits of criminal law and blurred its boundaries To think clearly about the future of criminal law and its role in a liberal society foundational questions about its proper scope structure and operations must be re examined What kinds of conduct should be criminalized What are the principles of criminal responsibility How should offences and defences be defined The criminal process and the criminal trial need to be studied closely and the purposes and modes of punishment should be scrutinized Such a re examination must draw on the resources of various disciplines notably law political and moral philosophy criminology and history it must examine both the inner logic of criminal law and its place in a larger legal and political structure it must attend to the growing field of international criminal law it must consider how the criminal law can respond to the challenges of a changing world Topics covered in this volume include the question of criminalization and the proper scope of the criminal law the grounds of criminal responsibility the ways in which offences and defences should be defined the criminal process and its values criminal punishment the relationship between international criminal law and domestic criminal law Together the essays provide a picture of the exciting state of criminal law theory today and the basis for further research and debate in the coming years     A Treatise On The Limitations Of Police Power In The United States Christopher G.
