Examples used in this Introduction are limited to English speaking countries. But populism's existent expressions are ecumenically global. Like any long lasting perennial organism, it is sturdy and comes in a variety of forms, adaptable to environmental changes. In political or cultural terms, its expression has been neither exclusively left center nor right. Populism contains multitudes; dates back centuries before it was identified with its modern name. Probably the single greatest catalyst to date that injected populism into the world's Internet common discourse that infused it into journalism, right left and center, and awakened populist political activism was the Great Recession of 2007-08 and the subsequent global deprivations it engendered. In today's world, populism promises to remain and renew its intensity due to the covid 19 pandemic's deleterious effects on most nations' middle and low income groups, specially minorities. These are some reasons among many why it is time for populism to be relocated, identified, and given refreshed 21st understandings. It has a shifting nature among people events causes that constantly demands fresh studies. It is a social and cultural phenomenon, both universal and particular. In our 21st century world, it is a product of our shared cultures and each our own exceptional deep culture. This Encyclopedia is unique in its composition as it includes all the major disciplines of Social Sciences and thus will be a one stop source of nine different disciplines looking at new populism.
