Poetics of Alterity Soyoung Lee, 2022-11-14 POETICS OF ALTERITY Education today is commonly oriented towards citizenship and skills for life with aims of happiness and wellbeing But this benign image harbours surreptitious forms of control which ultimately undermine the goods it professes to safeguard and stifle education s very purpose What release can there be from these constrictions Release is to be found as Soyoung Lee eloquently shows by attending to elements of experience that seem to escape our grip from challenging aspects of our moral lives to struggles over practicalities of curriculum content The more robust more outward turning orientation she demonstrates emphasises engagement with subject matter with problems and forms of narrative that defy pre determined formulations and categories This requires turning towards objects worthy of attention and towards people and their claims on us The arts and the humanities have special importance as spaces where alterity presents and expresses itself Lee s dialogue with Heidegger Levinas Derrida and Celan shows how acknowledgement of the other must condition not only practices of teaching and learning but practicalities of our social and political lives Attending to anxieties inherent in teaching and learning in school and the wider world the book s powerful rationale for the curriculum provides nothing less than a new grounding for the humanities

Chris Ford, 2011 *Art History, Art Criticism, and Art Production: Case studies of seven selected sites*, 1984 This study attempts to discover 1 the factors that generate support for a strong substantive art education program in a district's curriculum and 2 what factors influence the willingness and ability of school districts and teachers to carry out and maintain a discipline-based art education that strives for balance among the historical, critical, and productive domains of the visual arts. It uses case studies of seven sites: Whitehall, Ohio; Hopkins, Minnesota; Palo Alto, California; Decatur, and Champaign, Illinois; Brooklyn, New York; Milwaukee, Wisconsin; and Virginia Beach, Virginia. As a group, the case studies illustrate the importance of support from school board members, superintendents, and principals of a written curriculum and of in-service training. They provide examples of school-museum collaboration and dispel the notion that systematic instruction compromises or constrains individual creativity.
