Value Co-Creation in Web 3.0 Robin Qiu,2026-01-01 This book explores the architecture and framework for co creating the most valuable and promising data in the future Internet often referred to as Web 3.0 from the end user's perspective. Unlike the current platform economy where user's daily usage and activity data is predominantly held by individual organizations, Web 3.0 advocates for decentralized data management across interconnected platforms. This approach aims to fully utilize the vast amounts of data generated by the increasingly connected physical world. The book explains how Web 3.0 can be developed with fundamental and technological support to enhance decentralized data management and maximize benefits for end users. Additionally, it presents two use cases to illustrate how value co creation can be achieved using Web 3.0. The book is aimed primarily at students from business and engineering schools. It also serves as a valuable teaching resource for instructors in management information systems, MIS, information systems, information science and technology, and data and computing sciences. Additionally, professionals interested in digital transformation, blockchain technology, data analytics, AI, and digital economy policymaking will find it highly relevant.

Shawn Holley,2020-05-15 Book Delisted Ecosystems Without Borders 2023 Ruslan Polyakov,2023-07-24 The book in your hands is a collection of papers delivered at the II International Conference Ecosystems Without Borders Opportunities and Challenges held at Kaliningrad State Technical University in February 2023. The materials include studies reflecting the transformation of ecosystems both in innovative development and in science, technology, and business as well as the spatial aspects of ecosystems and features of the formation of a creative class in ecosystem conditions. In addition, the book includes theoretical articles which aim to implement the ideas of sustainable development and circular economy. The book is intended for a wide range of readers including practicing economists, students, graduate students, and researchers as well as government officials and company managers. We are confident that our book serves as an important source of information and knowledge that leads to scientific and innovative progress in the field of sustainable development of society.

In Search of the Perfect Health System Mark Britnell,2015-09-13 Winner of the first prize in the Health and Social Care category at the BMA Medical Book Awards 2016. With chapters on 25 different countries, this practical and succinct guide to the world's major health systems explores what lessons can be drawn from each to improve health worldwide. Each chapter is an essay designed to give the reader essential knowledge of the history, strengths, weaknesses, and lessons of each health system and provide a truly global health perspective. All in the time it takes to drink a cup of coffee. Whether a healthcare manager or a student studying health systems, this accessible and engaging book provides a fascinating insight into how health care is delivered around the world.
