Cyber Monday Reddit Pro Latest:

Update Culture and the Afterlife of Digital Writing John R Gallagher,2020-02-03 Update Culture and the Afterlife of Digital Writing explores neglected circulatory writing processes to better understand why and how digital writers compose, revise and deliver arguments that undergo sometimes constant revision. John R Gallagher also looks at how digital writers respond to comments, develop a brand and evolve their arguments all post publication. With the advent of easy to use websites, ordinary people have become internet writers, disseminating their texts to large audiences. Social media sites enable writers and audiences to communicate back to them instantly and often. Even professional writers work within interfaces that place comments adjacent to their text, privileging the audience's voice. Thus writers face the prospect of attending to their writing after they deliver their initial arguments. Update Culture and the Afterlife of Digital Writing describes the conditions that encourage published texts to be revisited. It demonstrates through forty case studies of Amazon reviewers, redditors and established journalists how writers consider the timing, attention and management of their writing under these ever evolving conditions. Online culture from social media to blog posts requires a responsiveness to readers that is rarely duplicated in print and requires writers to consistently reread, edit and update texts, a process often invisible to readers. This book takes questions of circulation online and shows via interviews with both writers and participatory audience members that writing studies must contend with writing's afterlife. It will be of interest to researchers, scholars and students of writing studies and the fields of rhetoric, communication, education, technical communication, digital writing and social media, as well as all content creators interested in learning how to create more effective posts, comments, replies and reviews.

The SAGE

Handbook of Social Media Research Methods Anabel Quan-Haase, Luke Sloan, 2022-09-02 The SAGE Handbook of Social Media Research Methods spans the entire research process from data collection to analysis and interpretation. This second edition has been comprehensively updated and expanded from 39 to 49 chapters. In addition to a new section of chapters focussing on ethics, privacy and the politics of social media data, the new edition provides broader coverage of topics such as Data sources, Scraping and spidering data, Locative data, video data and linked data, Platform specific analysis, Analytical tools, Critical social media analysis. Written by leading scholars from across the globe, the chapters provide a mix of theoretical and applied assessments of topics and include a range of new case studies and data sets that exemplify the methodological approaches. This Handbook is an essential resource for any researcher or postgraduate student embarking on a social media research project. PART 1 Conceptualising and Designing Social Media Research, PART 2 Collecting Data, PART 3 Qualitative Approaches to Social Media Data, PART 4 Quantitative Approaches to Social Media Data, PART 5 Diverse Approaches to Social Media Data, PART 6 Research Analytical Tools, PART 7 Social Media Platforms, PART 8 Privacy, Ethics and Inequalities.

The

People's Platform Astra Taylor, 2014-03-04 From a cutting edge cultural commentator and documentary filmmaker, a bold and brilliant challenge to cherished notions of the Internet as the great democratizing force of our age. The Internet has been

hailed as a place where all can be heard and everyone can participate equally But how true is this claim In a seminal dismantling of techno utopian visions The People's Platform argues that for all that we tweet and like and share the Internet in fact reflects and amplifies real world inequities at least as much as it ameliorates them Online just as off line attention and influence largely accrue to those who already have plenty of both What we have seen in the virtual world so far Astra Taylor says has been not a revolution but a rearrangement Although Silicon Valley tycoons have eclipsed Hollywood moguls a handful of giants like Amazon Apple Google and Facebook still dominate our lives And the worst habits of the old media model the pressure to be quick and sensational to seek easy celebrity to appeal to the broadest possible public have proliferated online where every click can be measured and where aggregating the work of others is the surest way to attract eyeballs and ad revenue In a world where culture is free creative work has diminishing value and advertising fuels the system the new order looks suspiciously just like the old one We can do better Taylor insists The online world does offer an unprecedented opportunity but a democratic culture that supports diverse voices work of lasting value and equitable business practices will not appear as a consequence of technology alone If we want the Internet to truly be a people's platform we will have to make it so

Frontiers in Fake Media Generation and Detection Mahdi Khosravy, Isao Echizen, Noboru Babaguchi, 2022-05-28 The book presents recent advances in the generation and detection of fake multimedia It also presents some frontiers in defensive techniques in front of skillfully cloned media The ultimate purpose of the research direction presented by this book is to build up a trustworthy media network benefited by an iron dome in front of media clones attacks The book focusses on 1 applications of deep generative models in the generation of fake multimedia and 2 cyber defensive and detective techniques in front of cyberattacks The book is composed of three parts i introduction ii fake media generation and iii fake media detection

Rhetoric and Experience Architecture Liza Potts, Michael J.

Salvo, 2017-08-04 Organizations value insights from reflexive iterative processes of designing interactive environments that reflect user experience I really like this definition of experience architecture which requires that we understand ecosystems of activity rather than simply considering single task scenarios Donald Norman The Design of Everyday Things
