Introduction to Information Systems R. Kelly Rainer, Brad Prince, 2022 *Introduction to Information Systems* 9th Edition delivers an essential resource for undergraduate business majors seeking ways to harness information technology systems to succeed in their current or future jobs. The book assists readers in developing a foundational understanding of information systems and technology and apply it to common business problems. This International Adaptation covers applications of the latest technologies with the addition of new cases from Europe, Middle East, Africa, Australia, and Asia Pacific countries. It focuses on global business environment for students to understand the norms of using technology while operating on online platforms for exploring new avenues in different geographical locations. The book includes real business scenarios of how latest technologies such as Big Data, Cloud Computing, Blockchain, and IoT are perceived and adopted across countries. New cases highlight key technology issues faced by organizations such as designing and implementing IT security policies dealing with ethical dilemma of securing customer data, moving IT infrastructure to cloud, and identifying how AI can be used to improve the efficiency of business operations. *Essentials* Keith Mulbery, Cynthia Krebs, 2002 For courses in Office Applications. The Essentials Series for Microsoft Office XP has been rewritten and redesigned to meet the needs of today's classroom. These hands on tutorials with a project orientation are designed to give students a thorough knowledge of software applications. Extensive end of project exercises emphasize hands on skill development.

You Look Like a Thing and I Love You Janelle Shane, 2019-11-05 As heard on NPR's Science Friday, discover the book recommended by Malcolm Gladwell, Susan Cain, Daniel Pink, and Adam Grant. An accessible, informative, and hilarious introduction to the weird and wonderful world of artificial intelligence. *You look like a thing and I love you* is one of the best pickup lines ever according to an artificial intelligence trained by scientist Janelle Shane, creator of the popular blog AI Weirdness. She creates silly AIs that learn how to name paint colors, create the best recipes, and even flirt badly with humans all to understand the technology that governs so much of our daily lives. We rely on AI every day for recommendations, for translations, and to put cat ears on our selfie videos. We also trust AI with matters of life and death on the road and in our hospitals. But how smart is AI really, and how does it solve problems, understand humans, and even drive self-driving cars? Shane delivers the answers to every AI question you've ever asked and some you definitely haven't. Like how can a computer design the perfect sandwich? What does robot-generated Harry Potter fan fiction look like? And is the world's best Halloween costume really Vampire Hog Bride? In this smart, often hilarious introduction to the most interesting science of our time, Shane shows how these programs learn, fail, and adapt—and how they reflect the best and worst of humanity. *You Look Like a Thing and I Love You* is the perfect book for anyone curious about what the robots in our lives are thinking. I can't think of a better way to learn about artificial intelligence and I've never had so much fun along the way. Adam Grant, New York Times bestselling author of *Originals*.
