Collaborative Crisis Management Thomas A. Cole, Paul Verbinne, 2022-09-26 All organizations are under threat from risks both internal and external that can result in serious crises. Managing risk and crisis in a complex information and misinformation rich and interdependent world is the key task leaders face. In this book Tom Cole, a noted corporate attorney, collaborates with Paul Verbinne, an expert on communications in crises, to show how leadership should manage risk and prepare for and handle crises. The steps, plans, and cautions they offer demonstrate that organizations can deal strategically with crisis, survive and prosper. The authors cover internal and external crises ranging from defective products to cyberattacks and the COVID pandemic. The authors outline a series of steps an organization should take, beginning with an analysis of likely risks and potential crises, with an emphasis on preparation and planning before a crisis happens. After a crisis is over, they stress the importance of reviewing how the crisis was handled to derive lessons for the future. They draw together the legal, organizational, and communications challenges posed by a crisis, showing how they relate to each other in developing strategy. They creatively use examples from recent crises, critiquing how organizations have handled different aspects of crises. This is a book for managers of both for-profit and not-for-profit organizations, their board members, those involved in aspects of crisis management, students, and journalists.

The Tyranny of Big Tech Josh Hawley, 2021-05-04 The reign of Big Tech is here, and Americans' First Amendment rights hang by a keystroke. Amassing unimaginable amounts of personal data, giants like Google, Facebook, Amazon, and Apple, once symbols of American ingenuity and freedom, have become a techno oligarchy with overwhelming economic and political power. Decades of unchecked data collection have given Big Tech more targeted control over Americans' daily lives than any company or government in the world. In *The Tyranny of Big Tech*, Senator Josh Hawley of Missouri argues that these mega corporations, controlled by the robber barons of the modern era, are the gravest

threat to American liberty in decades To reverse course Hawley argues we must correct progressives mistakes of the past That means recovering the link between liberty and democratic participation building an economy that makes the working class strong independent and beholden to no one and curbing the influence of corporate and political elites Big Tech and its allies do not deal gently with those who cross them and Senator Hawley proudly bears his own battle scars But hubris is dangerous The time is ripe to overcome the tyranny of Big Tech by reshaping the business and legal landscape of the digital world
