

Text Leveling Correlation Guide

Grades K-6

Because every reader is different, we've created six color-coded levels to match each reader with the right book. There are many systems out there, but Scholastic has created a leveling system that's designed to match the best in reading by reading with what's best for the most common word-level reading system. The chart approximates how those levels translate to other well-known leveling systems. The chart is provided for general perspective. Teachers are encouraged to adjust the translation according to their personal judgment and professional judgment.
