Memphis Boys chronicles the story of the rhythm section at Chips Moman's American Studios from 1964 when the group began working together until 1972 when Moman shut down the studio and moved the entire operation to Atlanta. Utilizing extensive interviews with Moman and the group as well as additional comments from the songwriters, sound engineers and office staff author Roben Jones creates a collective biography combined with a business history and a critical analysis of important recordings. She reveals how the personalities of the core group meshed, how they regarded newcomers and how their personal and musical philosophies blended with Moman's vision to create timeless music based on themes of suffering and sorrow. Recording sessions with Elvis Presley, the Gentrys, Aretha Franklin, Wilson Pickett, the Box Tops, Joe Tex, Neil Diamond, B.J. Thomas, Dionne Warwick and many others come alive in this book. Jones provides the stories behind memorable songs composed by group writers such as 'The Letter', 'Dark End of the Street', 'Do Right Woman', 'Breakfast in Bed' and 'You Were Always on My Mind'. Featuring photographs, personal profiles and a suggested listening section, Memphis Boys details a significant phase of American music and the impact of one studio

Metronome, 1958    **Schwann Compact Disc Catalog**, 1988-11    *The Self-Restorative Power of Music* Frank M. Lachmann, 2021-10-18 This book explores how we can understand the place of music from a self-psychological perspective by investigating three journeys: the one we take when listening to music, the literal journey of the author from Nazi Germany to the United States, and the subjective round trip between the past and the present. Drawing on the work of Heinz Kohut, the author examines how music can provide us with a way to reconnect with a sense of self and how this can manifest in psychological and physical ways. There is particular reference to the work of Richard Wagner, Cole Porter, and Richard Strauss, and an examination of how their music enabled them in times of stress and crisis to restore and maintain a more positive sense of self. Finally, the book looks back at the author's own experiences of music and the place of music in the Jewish world. With clinical excerpts, personal narrative, and sophisticated psychoanalytic insights, this book will appeal to all psychoanalysts wanting to understand the place of music in shaping the psyche as well as music scholars wishing to gain a deeper appreciation of the psychology of music
