The Literature of Business (Classic Reprint) Alta Gwinn Saunders, 2018-01-31 Excerpt from The Literature of Business Of composition an adequate vocabulary a sense Of style a respect for one's language and a capacity to organize and marshal one's ideas It is perfectly clear that no training can give all the information or produce all the qualities that are here suggested But it is pretty evident that it is reading upon which

we must depend for a very large part Of what we want The way in which this reading should be done is not quite so evident In the case Of college students whose requirements have been primarily in the minds of the editors two methods have been used some instructors ask their students to subscribe for business magazines others prepare lists of books and articles to which they send the students Both methods are admirable and they need not be discontinued even if a book Of selections is adopted However they suffer certain disadvantages If all students read only one magazine of business then the range Of reading is too narrow If definite selections from various magazines and books are assigned then large classes almost inevitably find difficulty in doing assigned reading promptly if at all If a wide range of choice is allowed then it is not possible to check the reading fully and the student s choice almost certainly depends upon his convenience rather than his needs The rapid growth Of classes in business English makes necessary simplification Of teach ing methods It is hoped that this book will contribute to such a simplification in connection with supplementary reading About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Five Hundred Business Books (Classic Reprint) Ethel Cleland, 2017-09-08 Excerpt from Five Hundred Business Books Why have we made this list Because there is a demand for it and we know it will be used A few years ago books on business were scorned by business men and for good reasons They were few in number and very poor They were nearly all quite preachy in tone were built on the Log Cabin to White House plan and were written by persons who had never done business and did not know business If the present day scope of the term business books is still not well known to you glance over the list of subjects that are covered by this volume remembering that it does not claim to include more than an outline of the whole field You will find That the subjects begin with Ethics Psychology and Personal Efficiency that is with morals of trade and industry the brain of the human machine and the art of getting the best possible service out of one s own mind and body Here are subjects that are now thought to be proper for the study of a young man who wants to do something worth while in the indus trial world They are today quite generally admitted to be business topics Again let me say that if you are not familiar with modern business literature it will pay you well to run through this whole list of the subjects with which the 500 books here listed deal It will suggest to you the tremendous studies that have been made in recent years in the subdivision and specialization of those managerial activities which guide all our industrial life It will go far also toward convincing you that we have passed the day in which bookishness was thought to be a proper attribute of the student and professor only and a hindrance rather than a help to the man of affairs Where it used to be said in praise of a man He is hard headed it is now

said as the existence of the books in this list quite clearly discloses He reads What I have just said could not be said so confidently if the books here listed Were merely published and not used But they are used and to an increasing extent every day It pays writers to write them and it pays publishers to produce them or they would not have come forth in recent years in such a ood that of them all the 500 here named is only a small part About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Plan and Print ,1928 *The Soul of Business (Classic Reprint)* ,2018-01-29 Excerpt from The Soul of Business The problems now facing us are more complex than any that business men have heretofore been called upon to solve We need more than ever before the keenest surest insight into the busi ness principles that are basic Methods and de vices however good will not suffice in these days We need the principles that lie deep in the nature of men as they have been worked out in the sanest business practices Doctor Jenks has made a study of this field of business psychology and business ethics In the illustrations that show the universality of the application of these principles appears much that will seem new and possibly strange Few will deny that they are sound We
