Weaponeering Guide:

Joint Targeting Planning Training Guide James F. Love, 1998 This guide resulted from an effort to develop a new approach to assessment and diagnostic training feedback in joint training. The guide resulted from a front end analysis of joint targeting for an air campaign planning simulation. The analysis generated detailed training objectives, measurement instruments and self assessment procedures for each objective. For each phase of the joint targeting cycle inputs, behavioral processes and products were specified and incorporated in measurement tools. The measures were developmentally applied during Blue Flag 97-1. Blue Flag is a recurring cycle of air campaign planning exercises managed by a numbered air force. Lessons learned from the application were combined with comments for Blue Flag participants to produce this joint training guide in its current form DTIC. *JMEM/AS Weaponeering Guide*, 1994 *JTCG/ME, Joint Technical Coordinating Group for Munitions Effectiveness*, 1998
