Popular Music in a Digital Music Economy Tim J. Anderson, 2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners. The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge. This book is not a definitive statement about what the new music industry is. Rather it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an object based industry oriented around the production and exchange of physical recordings. In this new economy constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial. Finally every element of the industry now must consider a new type of audience the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments.

Digital Disruption Bharat Vagadia, 2020-09-25 This book goes beyond the hype delving into real world technologies and applications that are driving our future and examines the possible impact these changes will have on industries economies and society at large. It details the actions governments and regulators must take in order to ensure these changes bring about positive benefits to the public without stifling innovation that may well be the future source of value creation. It examines how organisations in a world of digital ecosystems where industry boundaries are blurring must undertake radical digital transformation to survive and thrive in this new digital world. The reader is taken through a framework that critically examines i) Digital Connectivity including 5G and IoT ii) Data Capture and Distribution which includes smart connected verticals iii) Data Integrity Control and Tokenisation that includes cyber security digital signatures blockchain smart contracts digital assets and cryptocurrencies iv) Data Processing and Artificial Intelligence and v) Disruptive Applications which include platforms virtual and augmented reality drones autonomous vehicles digital twins and digital assistants.

The Rise of the Curator Class Steffon Davis, 2019-03-14 Pairing big ideas in marketing with the popular activity of content curation. The Rise of the Curator Class positions curation as a humanization movement that is restructuring the internet. Curation is set to overturn the 2.2 trillion global creative industry revolutionizing how we create market and discover content. In the era of content overload and fake news in which everything to buy, listen to, read or watch is available online there is one group of people who have learned to thrive in this climate of superabundance the curator class whose influence and power grows as more people look to them as guides. This new curator class is rewriting traditional curation tackling the overload and making sense of it for others. In the past curation was available to an elite few. Now internet platforms such as Pinterest, Spotify and Twitter empower hundreds of millions of people to curate their ideas for anyone who may be interested revolutionizing how content is marketed and sold. The Rise of the Curator Class explains how curation is disrupting internet commerce as consumer trust moves farther away from traditional brands and closer to the curators who

Zunächst erfolgt dafür eine kurze Charakterisierung von Ziel und Definition sogenannter Protestsmusik bevor in einem zweiten Schritt anhand eines biographischen Überblicks die Künstlerin selbst in den Fokus der Arbeit rückt. Hierbei erfolgt sowohl eine kurze Analyse des Privatlebens als auch ihrer gesanglichen Karriere. Im Hauptabschnitt der Arbeit wird dann der Song selbst musikwissenschaftlich untersucht. Hierzu werden sowohl eine Textanalyse vor dem damals aktuellen politischen Hintergrund als auch eine Audio und Videoanalyse der Performance des Songs vorgenommen. Im letzten Teil der Arbeit werden dann die gesammelten Ergebnisse der Arbeit genutzt um die eingangs gestellte Frage ob es sich bei dem Song dezidiert um einen Protestsong handelt zu beantworten **Digital HR** Thorsten Petry, Wolfgang Jäger, 2021-03-10 Was bedeutet die Digitalisierung für das Personalmanagement und wie kann der digitale Wandel sinnvoll gestaltet werden?
