**Proceedings of the International Conference on AI Research** Carlos Goncalves, Jose Carlos Dias Rouco, **Creating ChatGPT Apps with JavaScript** Bruce Hopkins Jr., Bruce Hopkins Sr., 2025-03-26 Transform your JavaScript expertise through the power of Open AI API models using *Creating ChatGPT Apps with JavaScript* This book will guide JavaScript developers to build smart applications while providing tangible knowledge of OpenAI's API for text summarization creating transcripts from audio files generating images and running models locally on your machine Through hands on projects and code examples readers will discover how to build AI powered apps from scratch such as using embeddings to train a Discord bot to answer customers questions in multiple languages Readers will also learn to dictate text for writing articles or blogs with a localized integration of Whisper

and generate hero images with Dall E What's more in the final chapter of this book you'll be able to maximize productivity by creating a Smart Assistant like Alexa or Siri with JavaScript and the new Raspberry Pi 5. From seasoned developers to newcomers this book offers something for everyone. Not only will readers learn to build apps with ChatGPT and JavaScript but they will also learn best practices for prompt engineering. They'll understand how AI models can enhance workplace efficiency and utilize natural language processing (NLP) to make interactions with applications feel well natural. The end result is expert knowledge in leveraging ChatGPT programmatically and incorporating the technology into diverse applications. What You Will Learn Gain a deeper understanding of ChatGPT and how OpenAI's models work and different ways to implement each of their various features. Authenticate with ChatGPT and OpenAI's API and learn to send prompts with best practices with prompt engineering. Streamline productivity and content creation by leveraging transcription generation for dictation and image generation for creating hero images. Stay ahead of the game by incorporating different new features of OpenAI's API and understanding more complex concepts like using GPT 4 to train a Discord bot with an FAQ to assist with multilingual tech support. Who This Book is for This book is written for JavaScript developers and hobbyists that want to use OpenAI and ChatGPT to create intelligent applications and streamline productivity. No prior experience with ChatGPT or OpenAI APIs is required.

*Openai* Gerard Blokdyk, 2017-11-21 Which individuals, teams or departments will be involved in OpenAI? If substitutes have been appointed, have they been briefed on the OpenAI goals and received regular communications as to the progress to date? How can the value of OpenAI be defined? What is our formula for success in OpenAI? What is the total cost related to deploying OpenAI including any consulting or professional services? Defining, designing, creating and implementing a process to solve a business challenge or meet a business objective is the most valuable role. In EVERY company, organization and department, Unless you are talking a one time, single use project within a business, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, 'What are we really trying to accomplish here? And is there a different way to look at it?' This Self Assessment empowers people to do just that - whether their title is entrepreneur, manager, consultant, Vice President, CxO, etc. they are the people who rule the future. They are the person who asks the right questions to make OpenAI investments work better. This OpenAI All Inclusive Self Assessment enables You to be that person. All the tools you need to an in-depth OpenAI Self Assessment. Featuring 700 new and updated case based questions, organized into seven core areas of process design, this Self Assessment will help you identify areas in which OpenAI improvements can be made. In using the questions you will be better able to diagnose OpenAI projects, initiatives, organizations, businesses and processes using accepted diagnostic standards and practices. Implement evidence based best practice strategies aligned with overall goals. Integrate recent advances in OpenAI and process design strategies into practice according to best practice guidelines.
