## What is Big Ben?

Big Ben is an enormous bell in the Elizabeth Tower in London. This bell is believed to weigh over 13 tonnes, is over two metres tall and almost three metres wide - that's the equivalent to two elephants!

It is the bell that is named Big Ben, opposed to the tower itself, because of its weight and size. On the top of the tower, there is a clock that is known for its accuracy. Tourists come from all over the world to appreciate its structure. You will find Big Ben in the Elizabeth Tower, to the North of the Houses of Parliament in Westminster, London.

## Where did Big Ben get its name?

It is not truly known how Big Ben got its name. However, some speculate that Big Ben got its name from Sir Benjamin Hall, who commissioned the building of the tower. However, another theory suggests that the building got its name from a famous character named Benjamin Bunt, because of the huge size of the bell.

## Who built it?

In 1835, a huge fire started in the Palace of Westminster, leaving a trail of destruction behind. After this, it was decided that the tower would be built. On the first of the way, there would be a clock face and inside of the tower, a bell would be located. The tower was built by Sir Benjamin Hall. The bell was built by Paul and following the death, his son Frederick Ben completed the build in 1858. The bell first rang in July 1859 but in September 1859 it cracked and a lighter hammer was placed inside of it.
