Popular Science Monthly ,1915 **Social Reading Cultures on BookTube, Bookstagram, and BookTok** Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube Bookstagram and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media and cultural studies as well as teachers and professionals in the book and library industries.

**Artificial Intelligence in Business** Pavankumar Gurazada & Seema Gupta, Artificial Intelligence in Business is transforming the way organizations operate driving innovation increasing efficiency and enabling smarter data driven decision making. Yet for many professionals and students the gap between complex technical concepts and practical business applications can feel overwhelming. This book bridges that gap with clarity, relevance and purpose. Designed for MBA students, business leaders and aspiring AI practitioners, Artificial Intelligence in Business cuts through the hype to provide a grounded, accessible and actionable guide to real world AI. From foundational principles like machine learning and deep learning to advanced applications in marketing, finance, supply chain and HR each chapter offers practical insights supported by real world use cases and code implementations. Whether you're aiming to enhance customer engagement, streamline operations or manage risk more effectively this book equips you with the knowledge and tools to apply AI strategically in a business context.

American Popular Music and Its Business in the Digital Age Music Licensing Consultant Rick Sanjek, 2024-07-18 As the long awaited sequel to American Popular Music and Its Business the First 400 Years this book offers a detailed and objective history of the evolution and effect of digital technology from 1985 through 2020 on all segments of the popular music business from CDs and stadium tours to TikTok and the effects of the COVID 19 pandemic with particular emphasis on the relationship between the creators, the consumers and the business professionals who form the three major axes of the industry. Author Rick Sanjek, a 50 year industry veteran combines the knowledge acquired during his decades of experience with scholarly research to create a compelling narrative of the events, economics and innerworkings of the modern music business.

**AI Business for Everyone** Michael T. Murphy, AI income strategies that actually work for YOUR life. This 1 000 page manual guide delivers hyper personalized passive income roadmaps for 15 demographics parents, retirees, freelancers, everyone. With 2 100 ready to

use prompts case studies exposing costly pitfalls and aggressive 30 day action checklists you'll build your 1 000 monthly automated income while others just read about AI. While others debate whether AI will take their jobs smart individuals across every demographic are quietly building automated income streams generating thousands monthly. This isn't another generic make money with AI guide assuming everyone's a tech savvy twenty something. This is the first truly democratized roadmap to AI wealth crafted for YOUR specific situation. Whether you're a stay at home parent squeezing work between school runs a retiree navigating technology a burned out freelancer seeking leverage or an influencer fighting algorithm changes this 1 000 page manual guide delivers hyper personalized strategies for your unique circumstances. Each of fifteen demographic focused chapters weaponizes your specific advantages and turns perceived limitations into competitive edges. What sets this guide apart is relentless practicality. This isn't theoretical exploration it's a bootcamp. Every chapter demands action through implementation checklists leaving zero room for procrastination. You'll launch micro businesses during naptime automate client work during lunch breaks and build passive income streams aligned with your lifestyle constraints. At its heart lies an arsenal of 2 100 battle tested prompts categorized by industry and demographic needs. These aren't generic templates they're precision engineered tools transforming ChatGPT and Claude into your personal workforce. From healthcare practitioners needing HIPAA compliant content to pet entrepreneurs dominating Instagram every prompt delivers immediate monetizable results. Through detailed case studies you'll witness actual people not gurus building sustainable AI businesses. Meet the seventy year old launching an AI consulting firm the exhausted mom automating her way to 3 000 monthly the weekend hobbyist whose Chrome extension generates 5 000 monthly. Crucially you'll learn their failures and costly mistakes too. This isn't success theater it's unvarnished truth about building AI income. Every chapter follows an aggressive thirty day timeline transforming overwhelming possibilities into daily actions. Week one tool setup and niche selection. Week two minimum viable product. Week three testing and refinement. Week four launch and scale. The structure pushes you from zero to revenue through forced accountability and relentless momentum. Specialized sections address challenges facing regulated industries and creative professionals. Healthcare practitioners monetize expertise while maintaining ethical boundaries. Artists discover how AI enhances rather than replaces creativity. Educators transform teaching skills into automated course empires. Small business owners multiply revenue without multiplying headcount. This isn't about replacing human creativity with artificial intelligence. It's about amplifying existing advantages through strategic automation. The book teaches you to identify unfair advantages whether life experience professional network or availability during odd hours and systematically convert them into income generating systems working while you sleep parent travel or pursue passions. The comprehensive prompt library eliminates the learning curve allowing immediate implementation. Action checklists ensure you're not just reading but doing. Real world examples show both spectacular wins and cautionary tales preparing you for every scenario. Join thousands discovering the AI gold rush isn't just for Silicon Valley insiders. Your
