**Curriculum Development for Students with Mild Disabilities** Carroll J. Jones, 2010 Many teachers of students with mild disabilities experience difficulty writing IEPs and they lack a foundation in the regular education curriculum of academic skills and sequences associated with each grade level. This book was designed to provide this foundation. Presented in the form of scope and sequence charts that can be used as objectives for the State Frameworks goals and benchmarks this resource assists in preparing IEPs including the new process of identification of children with disabilities through their responses to intervention RTI. An additional focus is on the impact of federal laws IDEA and NCLB on the curriculum and assessment in schools today. The book has been reorganized into ten chapters including historical perspectives, early childhood special education curricula, oral expression curricula, reading and listening curricula, written expression curricula, mathematics curricula, educational technology curricula, K-12 social and self competence curricula, science curricula, and evaluation reports, case studies, and Appendix. The scope and sequence charts were modified to include current national education standards and benchmarks and the skills in each of the academic areas that require annual state assessment. These charts will assist teachers in modifying the general education curriculum for students with mild disabilities and to write complete Individual Education Programs using age appropriate and developmentally appropriate teaching and assessment materials. Chapter summaries included for review purposes also serve as selective and motivational reading. With special education teachers in short supply and the demands on their time so great this book will provide a valuable resource for cutting the clutter and moving to the heart of the teaching process determining what skills students need to move effectively to the next level.

## **Classroom Assessment for Students with Special Needs in Inclusive Settings** Cathleen G. Spinelli, 2002

Imagine a world in which every single person on the planet is given free access to the sum of all human knowledge. That's what we're doing. Jimmy Wales. With more than 2 000 000 individual articles on everything from Aa a Japanese pop group to Zzyzx California written by an army of volunteer contributors. Wikipedia is the 8 site on the World Wide Web. Created and corrected by anyone with access to a computer this impressive assemblage of knowledge is growing at an astonishing rate of more than 30 000 000 words a month. Now for the first time a Wikipedia insider tells the story of how it all happened from the first glimmer of an idea to the global phenomenon it's become. Andrew Lih has been an administrator a trusted user who is granted access to technical features at Wikipedia for more than four years as well as a regular host of the weekly Wikipedia podcast. In The Wikipedia Revolution he details the site's inception in 2001 its evolution and its remarkable growth while also explaining its larger cultural repercussions. Wikipedia is not just a website it's a global community of contributors who have banded together out of a shared passion for making knowledge free. Featuring a Foreword by Wikipedia founder Jimmy Wales and an Afterword that is itself a Wikipedia creation.
