Prepare to be bewitched by Iceland and the book that has enchanted readers for decades and imprisoned one of them

Longlisted for the Indie Book Awards 2024 Elva loves Iceland for many reasons the epic landscape of gods and volcanoes weather that's the polar opposite of her home in Australia and the fact that it's where her mother might have gone back to when she disappeared Iceland is where Elva's beloved grandfather the famous children's book author lives in a remote village and where the beings that haunt her imagination reside Elva is interested in the odd things people make Victorian collectibles old spells taxidermy fairy tales The weird the wonderful and the sometimes macabre She's got a few quirks of her own that she's mainly keeping under control Except one Working in a shop of curiosities studying at an Icelandic language school Elva begins to explore her obsessions and when her grandfather suffers a stroke they threaten to overtake her Then she meets Remy a painter who's got some secrets of his own In her captivating debut Rijn Collins has created a beautifully evocative portrait of an enchanted mind in an enchanting place a story of everyday magic both dark and light of families and the shadows they can cast of the delights and dangers of the imagination Fed to Red Birds will transport you to remote corners of both the world and the human heart Intensely evocative and beautiful Hannah Kent author of Burial Rights Rijn Collins is a writer of great humanity and intelligence who has fashioned a vividly realised portrait of a young woman trying to make a life for herself in the shadow of familial trauma and dysfunction Simon McDonald Kill Your Darlings Fed to Red Birds is dreamy and immersive both travelogue and beautifully written literary fiction It is for readers who loved the insightful prose and armchair travel of Cold Enough for Snow by Jessica Au and the brooding fairytale-esque feelings of Hydra by Adriane Howell Books Publishing The sense of place in this novel is spellbinding as is Collins's prose in describing it Australian Book Review Last in this book I have only put it down for long enough to write this column and am already missing Iceland and Elva terribly I feel I am typing this with frost bitten fingers while being watched by trolls The Canberra Times Fed to Red Birds is a quietly haunting novel that leads us to ponder our histories and genealogies and how we hold onto the past through our obsessions and compulsions Better Reading Least Likely Two Jill Westwood, 2022-02-16 He thinks they're soulmates She thinks they're enemies What could go wrong Hollister When I walk into my twenty fifth high school reunion I have one mission to prove to Ben Rose my co valedictorian and nemesis that I've finally made it I've got a high profile PR client a kickass daughter in college and my two best friends at my side Suck it Ben Rose Ben There's only one person on my mental highlight reel from high school the magnificent Hollister Moran Bombshell redhead with a punk rock aesthetic and a beautiful brain The only problem She hates me Always has To have a future with her I have to confront the mistakes and secrets of the past Melville High School class of 1998 Wish me luck Least Likely Two is a standalone full length novel Hollister and Ben's story is perfect for readers who enjoy later in life love enemies to lovers steamy sexy times ride or die friendships uptight heroes sassy heroines Gen X romance surprise second chances divorced heroes and heroines and happily ever afters Because love and laughter don't end at forty **Teaching English for the Real World** Joe Nutt, 2020-05-15 So much of the teaching in schools of how the English works does not prepare students for the real world So

little has changed in exams the curriculum or the way people think about English teaching in several decades This book is Joe Nutt s attempt to help schools redress that dramatic imbalance It s not in any sense a practical teaching guide only for English teachers nor is it full of hints and tips lesson plans and schemes of work Teaching English for the Real World is a far wider consideration of what schools and English teachers should be doing if they wish to prepare secondary school children to be successful and effective users of English in the real world of work higher education and adult life they will all too soon enter If you are an English teacher by the time you finish reading Teaching English for the Real World you should be better prepared to deliver lessons that those you teach will forever be grateful for The book consists of four main sections English in context towards the GCSE choosing texts and technology matters It starts by putting English clearly into context through a range of current examples It urges teachers to consider the complex role English usage plays on everything from the side of a bus through tissue thin social media garish slideshows and perky TED talks to the hundreds of pages of research or official reports so often used as the basis for serious political policy and commercial decision making It will then examine the classroom status quo and instead of the unrealistic and damaging focus on experiment and creativity instead of requiring them to write newspaper articles stories or speeches the main deliverables in any English GCSE exam the book will argue that teachers should think carefully about how to connect what children write with who they are and where they really want to publish The next section deals with choices of texts There is a place for children to be taught to write well by example but there are challenging questions to ask about much of the material routinely chosen How often are texts and authors selected for study for reasons that have absolutely nothing whatsoever to do with knowledge or linguistic skill and everything to do with politics Even exam boards are guilty of this The final section examines the relationship between English and the technology real people use to produce it It reflects on how technology has impacted on the quality of the reading experience itself and argue that there is a crisis in reading in secondary schools with many children sailing through exams yet leaving school as disinterested and even poor readers And it suggests how teachers might approach introducing these different risks to children and equip them best to make sound judgements about the way they write and communicate for personal and employment purposes in adult life

[Digital Gender-Sexual Violations](#) Matthew Hall,Jeff Hearn,Ruth Lewis,2022-10-26 This groundbreaking book argues that the fundamental issues around how victim survivors of digital gender sexual violations DGSVs are abused can be understood in terms of gender and sexual dynamics constructions positioning and logics The book builds upon Hall and Hearn s previous work Revenge Pornography but has been substantially reworked to examine other forms of DGSV such as upskirting and sexual deepfakes as well as the latest research and debates in the field Facilitated by developments in internet and mobile technologies the non consensual posting of real or fake sexually explicit images of others for revenge entertainment homosocial status or political leverage has become a global phenomenon Using discourse and thematic analytical approaches this text examines digital survey and interview data on gendered sexual violences abuses

and violations The words of both the perpetrators and victim survivors are presented showing the impact on victim survivors and the complex ways in which phallocentric power relations and existing hegemonic masculinities are reinforced and invoked by perpetrators to position girls and women as gendered and sexualised commodities to be traded admired violated or abused for the needs of individual men or groups of men Hall Hearn and Lewis explore their research in a broader social and political context evaluating and suggesting changes to existing legislative frameworks education victim support and practical and policy interventions against DGSV along with wider political considerations This is a unique resource for students academics and researchers as well as professionals dealing with issues around digital gender sexual violations
