Social Entrepreneurship What Everyone Needs To Know Teaching Notes Final:

Social Entrepreneurship David Bornstein, Susan Davis, 2010-04-16 In development circles there is now widespread consensus that social entrepreneurs represent a far better mechanism to respond to needs than we have ever had before a decentralized and emergent force that remains our best hope for solutions that can keep pace with our problems and create a more peaceful world David Bornstein's previous book on social entrepreneurship How to Change the World was hailed by Nicholas Kristof in The New York Times as a bible in the field and published in more than twenty countries Now Bornstein shifts the focus from the profiles of successful social innovators in that book and teams with Susan Davis a founding board member of the Grameen Foundation to offer the first general overview of social entrepreneurship In a Q A format allowing readers to go directly to the information they need the authors map out social entrepreneurship in its broadest terms as well as in its particulars Bornstein and Davis explain what social entrepreneurs are how their organizations function and what challenges they face The book will give readers an understanding of what differentiates social entrepreneurship from standard business ventures and how it differs from traditional grant based non profit work Unlike the typical top down model based approach to solving problems employed by the World Bank and other large institutions social entrepreneurs work through a process of iterative learning learning by doing working with communities to find unique local solutions to unique local problems Most importantly the book shows readers exactly how they can get involved Anyone inspired by Barack Obama's call to service and who wants to learn more about the essential features and enormous promise of this new method of social change Social Entrepreneurship is the ideal first place to look [Social Entrepreneurship: Concepts](#).

required is a new more collaborative and productive economic system The Solution Revolution brings hope revealing just such a burgeoning new economy where players from across the spectrum of business government philanthropy and social enterprise converge to solve big problems and create public value By erasing public private sector boundaries the solution economy is unlocking trillions of dollars in social benefit and commercial value Where tough societal problems persist new problem solvers are crowdfunding ridesharing app developing or impact investing to design innovative new solutions for seemingly intractable problems Providing low cost health care fighting poverty creating renewable energy and preventing obesity are just a few of the tough challenges that also represent tremendous opportunities for those at the vanguard of this movement They create markets for social good and trade solutions instead of dollars to fill the gap between what government can provide and what citizens need So what drives the solution economy Who are these new players and how are their roles changing How can we grow the movement And how can we participate Deloitte's William D Eggers and Paul Macmillan answer these questions and more and they introduce us to the people and organizations driving the revolution from edgy social enterprises growing at a clip of 15 percent a year to megafoundations to Fortune 500 companies delivering social good on the path to profit Recyclebank RelayRides and LivingGoods are just a few of the innovative organizations you'll read about in this book Government cannot handle alone the huge challenges facing our global society and it shouldn't We need a different economic paradigm that can flexibly draw on resources combine efforts and create value while improving the lives of citizens The Solution Revolution shows the way
