**Social Justice**

**Counseling** Rita Chi-Ying Chung, Frederic P. Bemak, 2011-10-20 Social Justice Counseling develops a new frontier in multicultural social justice work and is the next step toward alleviating the injustices faced by individuals in society. Addressing issues of social class, race, and ethnicity and more, this book reflects the shift in recent years towards social justice counseling for all mental health professionals. It offers new and unique perspectives supplementing important social justice issues and enhancing the content taught in multicultural courses. The authors are leading authorities on multicultural and social justice counseling and have led the way to create a specialization with a nationally recognized program in multicultural social justice counseling.

*Decolonizing "Multicultural" Counseling through Social Justice* Rachael D. Goodman, Paul C. Gorski, 2014-11-03 Multicultural counseling and psychology evolved as a response to the Eurocentrism prevalent in the Western healing professions and has been used to challenge the Eurocentric, patriarchal, and heteronormative constructs commonly embedded in counseling and psychology. Ironically, some of the practices and paradigms commonly associated with multiculturalism reinforce the very hegemonic practices and paradigms that multicultural counseling and psychology approaches were created to correct. In *Decolonizing Multicultural Counseling through Social Justice*, counseling and psychology scholars and practitioners examine this paradox through a social justice lens by questioning and challenging the infrastructure of dominance in society as well as by challenging ourselves as practitioners, scholars, and activists to rethink our commitments. The authors analyze the ways well-meaning clinicians might marginalize clients and contribute to structural inequities despite multicultural or cross-cultural training and offer new frameworks and skills to replace the essentializing and stereotyping practices that are widespread in the field. By addressing the power imbalances embedded in key areas of multicultural theory and practice, contributors present innovative methods for revising research paradigms, professional education, and hands-on practice to reflect a commitment to equity and social justice. Together, the chapters in this book model transformative practice in the clinic, the schools, the community, and the discipline. Among the topics covered: Rethinking racial identity development models, Queering multicultural competence in counseling, Developing a liberatory approach to trauma counseling, Decolonizing psychological practice in the context of poverty, Utilizing indigenous paradigms in counseling research, Addressing racism through intersectionality, A mind-opening text for multicultural counseling and psychology courses, as well as other foundational courses in counseling and psychology education.

*Decolonizing Multicultural Counseling through Social Justice* challenges us to let go of simplistic approaches, however well-intended, and to embrace a more transformative approach to counseling and psychology practice and scholarship.

*Social Justice Multicultural Psychology and Counseling* Rita Chi-Ying Chung,2023 We were excited with the prospect of writing the second edition of this book but as we

embarked on this journey our hearts became heavy and deeply saddened as we witnessed multiple social injustices in our

community the nation and the world We have rewritten this Introductory Chapter a number of times as these injustices

occurred aware that these events impacted ours and others personal and professional lives and subsequently our writing

Astoundingly each violation of human rights and social and racial justice was as profoundly devastating disturbing and

shocking as the one that proceeded the injustice one month one week one day or even one hour before
