## **Social Status Prestige Graeco Roman World:**

Social Status and Prestige in the Graeco-Roman World Annika B. Kuhn, 2015 Social status and the prestige associated with it played a crucial role in Graeco Roman society constituting the basis for social stratification and shaping a complex web of social political economic and cultural relations The sixteen papers assembled in this volume take a fresh look at the study of social status and prestige in antiquity and discuss a variety of key aspects and issues of the topic including the formation and legal definition of status categories and hierarchies the dynamic interrelationship between status and prestige manifestations of status dissonance and social nonconformity the role of prestige as a resource of political power and the representation and display of status through the media of honorific inscriptions funerary monuments status symbols and prestige goods The volume covers a broad geographical and chronological scope which stretches from Roman Italy to the Greek East over the period from the early principate to late antiquity

*Identity and Socio-Economic Relations in Luke's Gospel* Ndekha, Louis, 2023-11-29 The book's central argument is that the best way to interpret the Sermon on the Plain in Luke 6 is to read it as a Greco Roman panegyric whose function was the integration of new members and the inculcation of commonly held values The Sermon's makarisms and woes and their juxtaposition of poverty and richness and exhortation are Luke's attempt to construct a new socio economic identity of Christ followers by supplanting the values of the dominant culture with a new set of values adopted from the status of destitution for both the rich and the poor This results in their common dependence on the Lord for their daily provisions Such reliance on the Lord allows for the koinonia between the rich and the poor among the first century Christ followers This socio economic motif is replicated throughout the Third Gospel and typifies Luke's concept of salvation as a holistic one

*Expressions of High Status* Jean-Pascal Daloz, 2022-09-01 This book is an unprecedented effort to compare representations and practices of social distinction worldwide and over the centuries It is based on years of observation in many countries and on the consultation of more than 2 500 multi disciplinary publications dealing directly or indirectly with this theme In two previous theoretical volumes on the topic *The Sociology of Elite Distinction* and *Rethinking Social Distinction* welcomed as major breakthroughs Jean Pascal Daloz has established himself as the foremost scholar of symbolic social superiority from a comparative perspective After having rigorously shown the limits of the main analytical frameworks available and outlined a much more inductive approach his new empirical book continues this intellectual journey Taking into consideration all sorts of cases and patterns of meaning it offers an impressive synthesis demonstrating how diverse the expressions of high status can be This comparative work is intended to be a crucial reference point and an important source of inspiration for researchers and students across many fields

**Luke's Portrait of Paul** John Clayton Lentz, 1993 The purpose of this book is to seek a fuller understanding of how the characterisation of Paul in Acts would have been perceived by those who first read or heard the Lucan narrative As the author makes clear the careful reader of Acts should be amazed at the way St Paul is portrayed therein Dr Lentz demonstrates through a careful examination of particular texts the great improbability that a Jew of strict Pharisaic background would have held let alone been proud of Roman citizenship and citizenship of the city of Tarsus By investigating the social and legal expectations of the first century the author shows that Paul is seen to be deferred to in matters of legal minutiae by those in positions of authority He is given high social status and abundant moral virtue in order to attract to Christianity the high ranking citizen who would recognise in Paul the classical cardinal virtues

**A New Temple for Corinth** John R. Lanci, 1997 A New Temple for Corinth examines the role that St Paul s image of the community as a temple plays in his overall rhetorical argument in 1 Corinthians It challenges traditional notions that Paul is inviting his

correspondents to understand themselves as a new temple replacing the one in Jerusalem Rather Paul uses a cultic metaphor that both Gentile and Jew could understand to introduce his central motif of community upbuilding for the sake of the common good This examination of first century Corinthian archaeology suggests methods to correct and complement previous literary and historical critical analyses of the Pauline corpus
