- **Piaget:** Swiss psychologist who created theory of cognitive development to explain the processes by which humans come to perceive, organize knowledge, define problems, and understand the world. According to this theory, human cognitive development is the product of a continuous, reliable pattern or plan of interaction with the environment. Humans are a software. Software is a goal-oriented strategies that helps the person perform some intended result. These software are continuous (consisting in theory and early skills, in which software and motor programs are generated) and cognitive (based on experience and on mental images, reflecting the person's ability to develop the use of abstract reasoning and symbolism).
- **Freud:** German psychologist who worked in human psychosexual development theory. Created 8 stages of life.
- **Robert Rorty:** Proposed panic theory, calling it both narcissism and development in women. Thought, theory proposed that men experience feelings of inferiority because they cannot give birth to children.
- **Western & Eastern:** Created another basic categories, which the men in pregenital stage have, begin with non-genital touching only, leads to genital touching. Used to measure pleasure without pressure to perform anal/oral release organs.
- **Anna Freud and Virginia Mahoney:** started functional theory. They attributed to the school of life as P & M and influenced the work of Freud, theory & Mahoney. This school was presented in contrast to the psychoanalytic school of thought (which was primarily psychoanalytic).
- **Anna Freud:** started ego psychology
- **Willy Reich:** founder of gestalt theory
- **Malcolm:** founder of object relations theory
- **Carl Rogers:** founder of client-centered theory
- **Freud & Mahoney & Garfield:** founder of systems theory
- **Adrian:** "Father of family therapy." He particularly used a psychoanalytic approach, insight oriented.
- **Kate & Whitaker:** Communication in family therapy. Mainly experiential (through experiential communication and interaction, awareness of self and how leading to personal accountability, and increasing patterns of interaction. Later focused on communication problems, double bind, faulty communication is caused by low self-esteem, and the presence of a particular type of therapist. Whitaker mostly oriented with awareness and discussed the transference phenomenon. Initially communication family therapist acknowledges that transference has been used provide a foundation for family problems, but they do not try to interpret these factors. Family therapist who founded the emphasis on communication patterning and often referred to as the "White Hat" group.
