**San Miguel de Allende** Lisa Pinley Covert,2017-06 Struggling to free itself from a century of economic decline and stagnation the town of San Miguel de Allende nestled in the hills of central Mexico discovered that its timeless quality could provide a way forward While other Mexican towns pursued policies of industrialization San Miguel on the economic political and cultural margins of revolutionary Mexico worked to demonstrate that it preserved an authentic quality earning designation as a typical Mexican town by the Guanajuato state legislature in 1939 With the town s historic status guaranteed a coalition of local elites and transnational figures turned to an international solution tourism to revive San Miguel s economy and to reinforce its Mexican identity Lisa Pinley Covert examines how this once small quiet town became a UNESCO World Heritage Site and home to one of Mexico s largest foreign born populations By exploring the intersections of economic development and national identity formation in San Miguel she reveals how towns and cities in Mexico grappled with change over the course of the twentieth century Covert similarly identifies the historical context shaping the promise and perils of a shift from an agricultural to a service based economy In the process she demonstrates how San Miguel could be both typically Mexican and palpably foreign and how the histories behind each process were inextricably intertwined
