for whom he is central to an understanding of the 20th century. There is therefore a real need for this book. In addition to containing twice the number of talks as the previous volume, it is supplemented with explanatory introductions, footnotes and citations. It also reveals as far as this is possible, alternative versions of Pevsner's texts as they appeared at different stages in the original production process. As such this edition can be relied on by academics as scholarly and definitive.
