**10 Principles for Liveable High-density Cities** ,2013      **The Politics of Water Resource Development in India** John R Wood, 2007-04-04 This book is about the politics of water resource development and management in India with special reference to the Narmada river waters dispute The author draws on a wealth of studies on Narmada as also his own research to analyse the controversy from the perspective of a political scientist The author analyses three aspects of the conflict over developing the waters of the Narmada The politics of the inter state river water dispute over Narmada waters in the context of Indian centre state and inter state relationships and the constitutional and legal mechanisms for resolving disputes among riparian states The Narmada upstream downstream politics implicit in the battle between downstream Gujarat and Rajasthan versus upstream Madhya Pradesh and Maharashtra The much publicized struggle between those for and others against the construction of the gigantic Sardar Sarovar dam Given the highly contentious nature of these struggles the author objectively highlights how and why the outcomes of such struggles have largely depended on the realities of power      *Integrating Land Use & Mobility*

Clarice Chow, Jean Chia, Mina Zhan, 2018      *Engaging Well, Forging Bonds* Louisa-May Khoo, Jason Boh, 2018      One-north  
 Shi Hui Phua, 2018 This book chronicles the genesis planning and development of one north A key element of Singapore's  
 Technopreneurship 21 initiative one north provides an intellectually stimulating and creative environment to attract world  
 class research talent and investments to drive the next phase of the country's development Planned as a work live play and  
 learn environment the innovation district symbolises Singapore's response to changing economic circumstances and its  
 transformation into a knowledge economy This study examines the development of Biopolis Fusionopolis and Mediapolis as  
 clusters for industries in biomedical services info communications technology and media supported by capabilities in science  
 and engineering Back cover      *Integrating the Planning of Airports and the City* Kay Teck Cheong, 2019

**Sino-Singapore Guangzhou Knowledge City** Shi Hui Phua, Yimin Zhou ((Of Centre for Liveable Cities,  
 Singapore)), 2017      **Planning, Development and Management of Sustainable Cities** Tan Yigitcanlar, Md. (Liton)  
 Kamruzzaman, 2019-04-30 The concept of sustainable urban development has been pushed to the forefront of policymaking  
 and politics as the world wakes up to the impacts of climate change and the destructive effects of the Anthropocene Climate  
 change has emerged to be one of the biggest challenges faced by our planet today threatening both built and natural systems  
 with long term consequences which may be irreversible While there is a vast body of literature on sustainability and  
 sustainable urban development there is currently limited focus on how to cohesively bring together the vital issues of the  
 planning development and management of sustainable cities Moreover it has been widely stated that current practices and  
 lifestyles cannot continue if we are to leave a healthy living planet to not only the next generation but also to the generations  
 beyond The current global school strikes for climate action known as Fridays for Future evidences this The book advocates  
 the view that the focus needs to rest on ways in which our cities and industries can become green enough to avoid urban  
 ecocide This book fills a gap in the literature by bringing together issues related to the planning development and  
 management of cities and focusing on a triple bottom line approach to sustainability      **Sediment Management in Water**  
**Resources Projects** Dr. B. N. Asthana, 2007 Chiefly with reference to India      Grape Production in Namibia Namene  
 Kalili, 2000
