## **Waterloo Relics Famous Battles:**

**Waterloo Relics** Gilles Bernard, Gérard Lachaux, 2015 Waterloo morne plaine Waterloo sad plain These three words still echo in French people's minds Beyond Victor Hugo's writings they remember that it was a defeat rather than a battle and also depending on where your opinions lie the final act of a fantastic epic or that of a terrible despot June 1815 the 18th a day which will give Wellington and Blücher immortal glory and sealed the fate of Europe for decades Authentic proof of the battle has had to be found at its source Two centuries afterwards the only valid proof in our opinion was those objects which had really been at Waterloo Strangely enough with all the books and publications on the subject nobody ever seemed to have taken an interest in this aspect And yet their emotional capital still remains intact from the very famous hat belonging to Napoleon to the uniform button of an obscure infantry fusilier

## **Britons and their Battlefields** Ian Atherton, 2024-08-19

While much attention has been paid to the commemoration of conflict in the twentieth century this book is the first to consider conflict memory in the long term arguing that modern practices were not created out of the mud of the trenches but evolved from much longer practices From the fourteenth century to the present day this work analyses the changing commemoration and memories of British battlefields at home and overseas from Bannockburn 1314 to Bosworth 1485 to Basra 2003 9 Across these seven centuries there has been a series of recurring post battle rituals that have shaped and continue to shape memories of conflict Three distinct but overlapping periods of memory can be delineated In the later Middle Ages battlefields were consecrated by the burial of the fallen and often by the erection of a battlefield cross or chapel or chantry to pray for the dead The second phase began with the Protestant Reformation in the 1530s when pilgrimage and prayers for the dead were abolished and battlefield chantries were dissolved and many battlefield crosses were demolished Memories shifted from the dead to the living especially the bodies of surviving veterans who commemorated the conflict by their wounds and from soil and stone to print and ink The third phase began in the eighteenth century when antiquaries and others established new monuments on past battlefields Monuments to survivors and the dead were established on contemporary battlefields such as Waterloo once again hailed as sacred ground hallowed by bloodshed fit destinations for a pilgrimage Not just officers but ordinary soldiers began to be memorialized by name on the battlefield culminating in the cult of the names of the dead enshrined by the creation of the War Graves Commission in 1917 and the idea that battlefields should be preserved unchanged as seen in modern heritage management Drawing on a wide variety of literary and historical sources and taking a uniquely long duration approach the book explores and links memory making practices from across the period to reconsider the ways in which battlefields are commemorated and re-commemorated In so doing it makes a unique contribution to a wide range of historiographical fields British history since the fourteenth century memory studies heritage studies landscape history conflict archaeology and military history
