Cortada,1996-08-23 looks at computing as business history from the perspective of the business historian and business manager *Strategic Warfare in Cyberspace* Gregory J. Rattray,2001 A comprehensive analysis of strategic information warfare waged via digital means as a distinct concern for the United States and its allies In the information age information systems may serve as both weapons and targets Although the media has paid a good deal of attention to information warfare most treatments so far are overly broad and without analytical foundations In this book Gregory Rattray offers a comprehensive analysis of strategic information warfare waged via digital means as a distinct concern for the United States and its allies Rattray begins by analyzing salient features of information infrastructures and distinguishing strategic information warfare from other types of information based competition such as financial crime and economic espionage He then establishes a conceptual framework for the successful conduct of strategic warfare in general and of strategic information warfare in particular Taking a historical perspective he examines U S efforts to develop air bombardment capabilities in the period between World Wars I and II and compares them to U S efforts in the 1990s to develop the capability to conduct strategic information warfare He concludes with recommendations for strengthening U S strategic information warfare defenses **Waves of Change** Mckenney,1995-01 Information technology IT has revolutionized many industries over the past several decades In Waves of Change the author examines with the benefit of hindsight two important cases in which IT has facilitated radical change tracing the development of Bank of America s ERMA check sorting systems American Airlines SABRE reservation system from their inception to the present From these other companies experiences the author develops a framework for an IT based strategy to help managers in all industries improve competitive strength in their own organizations *CIO* ,1995-06-15 CIO magazine launched in 1987 provides business technology leaders with award winning analysis and insight on information technology trends and a keen understanding of IT s role in achieving business goals *Harvard Business School Bulletin* ,1995 Transforming Organizations with Information Technology Richard Baskerville,1994 A critical survey of recent trends in the relationship of information technology IT and organizational change Topics covered include applications human organizations the impact of new organizational forms on the management of IT and the use of IT as a means to transform organizations *Business-driven Information Technology* David R. Laube,Raymond F. Zammuto,2003 That every manager needs to know in order to use information technology effectively Business professionals will value the book because it covers a range of important areas that few know completely University students will find the book a valuable source of necessary information for technology and management courses Rarely is so much diverse expertise brought together and focused in a single book Book jacket Harvard Business School Publishing ... Catalog of New Teaching Materials Harvard Business School Publishing Corporation,1996 IT and Business Jens Christensen,2000 Industrialised societies have changed enormously since World War II Business enterprises have laid the foundation for this process as well as adapted to a world

where industrialisation and internationalisation have spread rapidly It is probably safe to say that without IT this expansion would not have been possible and the air transport industry has played a substantial and significant role in this development This book follows the development and the interplay between information technology and business during the second part of the twentieth century SAS has been selected as the central theme of this publication because the company being a deeply integrated part of this general development has also been an outstanding representative of business life and especially the revolutionary progress of IT towards globalisation and the Internet towards the turn of the millennium   Harvard Business School Core Collection Baker Library,1999   **Information Technology and Innovation** Vallabhajosyula Sambamurthy,Robert W.
