**FY2025-FY2027 Medium-Term Budget** International Monetary Fund. Office of Budget and Planning,2024-05-10 The Executive Board of the International Monetary Fund approved the 2025-27 financial years FY25-27 medium term budget. While the global economy has shown resilience to successive adverse shocks the overall global economic context remains complex with slow and uneven growth increased fragmentation deepening divergence and still high interest rates despite easing inflationary pressures. Against this backdrop the FY25-27 budget continues to be guided by principles of agility and budget discipline reinforced by ongoing reprioritization and savings capture. It also builds on strong cooperation with other institutions ensuring the Fund continues to focus on areas within its mandate even as it addresses new demands. Work to strengthen internal operations also continue focusing on both efficiency and effectiveness in meeting changing needs in the post pandemic workplace where rapid technological changes are underway. With significant demands within a constrained budget environment the budget reflects difficult tradeoffs. **FY2025 Budget Outturn** International Monetary Fund. Office of Budget and Planning,2025-08-29 The paper presents highlights from the FY2025 budget followed by a discussion of outputs based on the Fund Thematic Categories and of inputs. **FY2023-FY2025 Medium-Term Budget** International Monetary,International Monetary Fund. **The Doom Loop** Eswar S. Prasad,2026-02-05 Globalisation and its institutions have failed to adapt to today's political economic realities. What went wrong and how can we reverse our descent into chaos. The United States once the world's undisputed superpower is losing its dominant position. Rising economies like China and India increasingly exert their influence. The West's share of global GDP consistently declines and America's rules based system risks becoming irrelevant. In business competition brings efficiency balance and innovation. But in the marketplace for global power things look rather different. Acclaimed economist Eswar S Prasad argues that the very forces expected to stabilise the world order are fuelling disarray. Instead of promoting shared prosperity globalisation has deepened inequality in many countries stoked political backlash and prompted escalating trade wars. Economic institutions like the International Monetary Fund and World Trade Organization founded to foster cooperation have failed to adapt to twenty first century realities. The ascent of middle powers like South Africa Brazil and Indonesia once suggested a stable multipolar future but today such economies are forced to pick sides in an intensifying US China struggle for hegemony. In clear eyed bracing prose Prasad contends that we are caught in a destructive feedback loop between economics domestic politics and geopolitics. As instability becomes the status quo we need radical new solutions to reinvigorate the world economy prioritise common aspirations and reverse our downward spiral into disaster. **The United States Law Week** ,1962 **The Constitutional Year Book** ,1905 **Alabama Business** ,2001
