As a result, social media marketing can move away from conventional responsive design with the goal of creating more participative visual content with some sort of more graphic capabilities to explore and use. Using storytelling in marketing offers a structure people are familiar with and leads to satisfied customers getting a vision of living happily ever after. Influencers with a large number of active followers could be the gateway to a lot more traffic and profits. Even if you pay the influencer to post your content to their followers, the return on investment can be considerable. Small business owners are catching on to the wonders of remarketing. Facebook pixels are easier than ever to use to track customers from your site and try to convert them from browsers into buyers. Some marketers report a conversion rate as high as 75%. The secret: More customized, varied content rather than the same messaging they have already seen and acted upon. The most recent Google algorithm formula change hit on August 1, 2018. Google states that it was intended to give credit to worthy sites that were not getting as much attention as they deserved. While it still looks like a lot of Wikipedia, there have been some changes in placements. As always, the best way to optimize your content is to write naturally. There will be a couple of changes coming up that will affect sites in 2019 and
