**School Library Journal**, 2010    **Mediaweek**, 2010-10    **Business World**, 2010    **Deadlines and Disruption: My Turbulent Path from Print to Digital** Stephen Shepard, 2012-08-21 A Top Editor's Take on the State of Journalism Today and His Prescient Forecast of Its Future. This is a personal and insightful book about one of the most important questions of our time: how will journalism make the transition to the digital age? Steve Shepard made that leap bravely when he went from being a great magazine editor to the first dean of the City University of New York journalism school. His tale is filled with great lessons for us all. Walter Isaacson, bestselling author of *Steve Jobs*, An insightful and convivial account of a bright, bountiful life dedicated to words, information, and wonder. *Kirkus Reviews*, Starred Review. This is two compelling books in one. Shepard's story of his life in print journalism and a clearheaded look at the way journalism is evolving due to electronic media, social networking, and the ability of anyone with a computer and an opinion to make him or herself heard. *Booklist*. Shepard's book will resonate with many and should be read by anyone interested in the flow of information today and its impact on society as a whole. *Library Journal*. The book is in part a memoir, a tale of a life lived at the height of print journalism when print journalism itself was at its height. But it is also an analysis, an examination of the new challenges facing an old industry as it ambles and occasionally sprints its way into the digital age. *The Washington Post*. About the Book. My personal passage is in many ways a microcosm of the larger struggle within the journalism profession to come to terms with the digital reckoning. Will the new technologies enhance journalism or water it down for audiences with diminished attention spans? What new business models will emerge to sustain quality journalism? Stephen B. Shepard has seen it all. Editor in chief of *BusinessWeek* for more than 20 years, Shepard helped transform the magazine into one of the most respected voices of its time. But after his departure, he saw it collapse, another victim of the digital age. In *Deadlines and Disruption*, Shepard recounts his five decades in journalism, a time of radical transformations in the way news is developed, delivered, and consumed. Raised in the Bronx, Shepard graduated from City College and Columbia, joined *BusinessWeek* as a reporter, and rose to the top editorial post. He has closed the circle by returning to the university that spawned him, founding the Graduate School of Journalism at the City University of New York. In the digital age, anyone can be a journalist. Opinion pieces are replacing original reporting as the coin of the realm. And an entire generation is relying on Facebook friends and Twitter feeds to tell them what to read. Is this the beginning of an irreversible slide into third-rate journalism? Or the start of a better world of interactive multimedia journalism? Will the news industry live up to its responsibility to forge a well-informed public?

Shepard tackles all the tough questions facing journalists the news industry and indeed anyone who understands the importance of a well informed public in a healthy democracy The story of Shepard s career is the story of the news industry and in Deadlines and Disruption he provides peerless insight into one of the most critical issues of our time
