fabric market when I noticed that a number of garments were embroidered with really attractive smocking stitches at the front and the back the neck yokes pockets sleeves the bodices necklines bodices cuffs and even waists of a supposedly plain design and turn them into a thing of beauty Smocking is supposed to have originated in Europe somewhere in the medieval times where buttons could not be afforded by the laborers to fasten the garment and fullness needed to be controlled This was done with multiple rows of gathered fabric which was controlled over a wide area Nowadays it is restricted to just babies and children s clothing primarily even though you can use it on any garment which needs a bit of decorative embellishment Later on smocking became a purely decorative design intended as a status symbol the word originates from a peasants shirt also known as a smock This was used extensively in almost every garment made by hand for laborers as well as for popular ordinary wear in the eighteenth as well as the nineteenth century Smocking at that time was done with crewel needles or embroidery needles with silken threads or cotton threads depending on the fabric You will need about 3 times the initial width s material because of major part of it is going to be gathered up into folds and stitched together If you can gather the material you can smock it Naturally this was the best way in which clothes could be gathered together in the absence of elastic The fabrics on which the stitches work best are lightweight and ones that can gather easily These include gingham muslin cr pe de Chine Cashmere Swiss cotton voile Batiste cottons and handkerchief linens *The Teachers' Guide* ,1930
