Variations Digitales 2016 Creations Multiples:

Digital Food Provisioning in Times of Multiple Crises Arne Dulsrud, Francesca Forno, 2024-03-23 This edited collection brings together theoretical and empirical reflections on the role played by new technology and digital platforms in the provision of food. The way food is produced, distributed, consumed, and disposed has significant consequences for the environment, affecting soil fertility, water, and air quality, the state of the climate, and the loss of biodiversity. Such negative effects are strictly related to the agro-industrial system of production and consumption based on logic of low prices, high availability, and high waste. This collection brings together a carefully curated range of insights from a team of twenty researchers coming from different fields working in different European universities engaged in the same project for more than three years. As a result, this book will appeal to people working on food studies and on sustainable food production and consumption, offering both conceptual and theoretical insights into contemporary food issues alongside empirical illustrations.

ICCWS 2016 11th International Conference on Cyber Warfare and Security Dr Tanya Zlateva and Professor Virginia Greiman, 2016 The 11th International Conference on Cyber Warfare and Security ICCWS 2016 is being held at Boston University Boston USA on the 17-18th March 2016. The Conference Chair is Dr Tanya Zlateva and the Programme Chair is Professor Virginia Greiman both from Boston University. ICCWS is a recognised Cyber Security event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual and empirical advances in the area of Cyber Warfare and Cyber Security. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of Cyberwar and Cyber Security research available to them. The keynote speakers for the conference are Daryl Haegley from the Department of Defense DoD who will address the topic Control Systems Networks What's in Your Building and Neal Ziring from the National Security Agency who will be providing some insight to the issue of Is Security Achievable A Practical Perspective. ICCWS received 125 abstract submissions this year. After the double blind peer review process there are 43 Academic Research Papers, 8 PhD papers, Research papers, 7 Masters and 1 work in progress papers published in these Conference Proceedings. These papers represent work from around the world including Australia, Canada, China, Czech Republic, District of Columbia, Finland, France, Israel, Japan, Lebanon, Netherlands, Pakistan, Russia, Federation, Saudi Arabia, South Africa, Turkey, United Arab Emirates, UK, USA. *The Biopic and Beyond* Melanie Piper, 2022-07-14 Biopics and other movies and television shows based on real events are increasingly appearing at the multiplex and on streaming platforms alongside blockbuster franchises and adaptations. The appeal of movies and television shows based on true stories is that they claim to tell us what really happened with the public and private versions of events packaged into one coherent narrative. But how do they do it and what makes this version of events so appealing? *The Biopic and Beyond* investigates the process that turns the distant public figures that populate news and entertainment into screen.

characters that we can engage with and try to understand a little better Even though they aren't the real thing our engagement with fictionalized versions of public figures can for better or worse color the way we understand the real person behind them Screen engagement with the fake person behind the real person doesn't only happen in biopics and docudramas with media as varied as sketch comedy fan fiction and the celebrity cameo contributing to the ways we understand public figures Using case studies such as Mark Zuckerberg and The Social Network Sarah Palin and Saturday Night Live and Louis C K and Louie The Biopic and Beyond will make you think about the way you see the world through a fictionalized version of it

Social and Psychological Determinants of Value Co-creation in the Digital Era Ricardo Martinez Cañas, Maria

Angeles Garcia Haro, Pablo Ruiz-Palomino, Louise Kelly, 2021-07-21

Digital Therapeutics Oleksandr Sverdlov, Joris van

Dam, 2022-12-06 One of the hallmarks of the 21st century medicine is the emergence of digital therapeutics DTx evidence based clinically validated digital technologies to prevent diagnose treat and manage various diseases and medical conditions DTx solutions have been gaining interest from patients investors healthcare providers health authorities and other stakeholders because of the potential of DTx to deliver equitable massively scalable personalized and transformative treatments for different unmet medical needs Digital Therapeutics Scientific Statistical Clinical and Regulatory Aspects is an unparalleled summary of the current scientific statistical developmental and regulatory aspects of DTx which is poised to become the fastest growing area of the biopharmaceutical and digital medicine product development This edited volume intends to provide a systematic exposition to digital therapeutics through 19 peer reviewed chapters written by subject matter experts in this emerging field This edited volume is an invaluable resource for business leaders and researchers working in public health healthcare digital health information technology and biopharmaceutical industries It will be also useful for regulatory scientists involved in the review of DTx products and for faculty and students involved in an interdisciplinary research on digital health and digital medicine Key Features Provides the taxonomy of the concepts and a navigation tool for the field of DTx Covers important strategic aspects of the DTx industry thereby helping investors developers and regulators gain a better appreciation of the potential value of DTx Expounds on many existing and emerging state of the art scientific and technological tools as well as data privacy ethical and regulatory considerations for DTx product development Presents several case studies of successful development of some of the most remarkable DTx products Provides some perspectives and forward looking statements on the future of digital medicine

Perspectives on Design and Digital Communication III Nuno Martins, Daniel Brandão, Francisco Paiva, 2022-09-18 This book gathers new empirical findings fostering advances in the areas of digital and communication design web multimedia and motion design graphic design branding and related ones It includes original contributions by authoritative authors based on the best papers presented at the 5th International Conference on Digital Design and Communication Digicom 2021 together with some invited chapters written by leading international researchers They report on innovative design strategies supporting

communication in a global digital world and addressing at the same time key individual and societal needs This book is intended to offer a timely snapshot of technologies trends and challenges in the area of design communication and branding and a bridge connecting researchers and professionals of different disciplines such as graphic design digital communication corporate UI Design and UX design **Preparing for Life in a Digital World** Julian Fraillon,John Ainley,Wolfram Schulz,Tim Friedman,Daniel Duckworth,2020-02-13 This Open Access book summarizes the key findings from the second cycle of IEA's International Computer and Information Literacy Study ICILS conducted in 2018 ICILS seeks to establish how well schools around the globe are responding to the need to provide young people with the necessary digital participatory competencies Effective use of information and communication technologies ICT is an imperative for successful participation in an increasingly digital world ICILS 2018 explores international differences in students computer and information literacy CIL namely their ability to use computers to investigate create and communicate at home at school in the workplace and in the community Participating countries also had an option to administer an assessment of students computational thinking CT focused on their ability to recognize aspects of real world problems appropriate for computational formulation and to evaluate and develop algorithmic solutions to those problems so that the solutions could be operationalized with a computer The data collected by ICILS 2018 show how digital competencies can be assessed using instruments representing authentic contexts for ICT use and how students CIL and CT skills relate to school learning experiences out of school contexts and student characteristics Those data also show how learning technologies are used in classrooms around the world Background questionnaires asked students about their use of ICT and collected information from teachers schools and national education systems about the resourcing and teaching of CIL and CT within their countries The results of ICILS 2018 will enable policymakers and education systems to develop a better understanding of the contexts and outcomes of CIL and CT education programs

Loose-leaf Version for Media & Culture with 2016 Update Richard Campbell,Christopher Martin,Bettina Fabos,2016-01-08 While we all use digital technology daily many of us don't realize how text audio and visual media converge together to enhance our everyday experiences The tenth edition of Media Culture Mass Communication in a Digital Age enriches students understanding of these experiences by focusing on what the constant changes mean to their everyday lives Since the publication of the tenth edition we've seen even more changes revisions in net neutrality laws shifts in viewing habits new forms of online activism and the kickoff of a new media saturated presidential race The new 2016 update of Media Culture covers these issues alongside new infographics photos cross reference pages and a digital jobs feature Media Culture brings together industry expertise media history and current trends for an exhilarating look at the media right now

ECMLG 2021 17th European Conference on Management, Leadership and Governance Professor Frank Bezzina ,Professor Vincent Cassar,2021-11-08 **The Routledge Handbook of Second Language Acquisition and Individual Differences** Shaofeng Li,Phil Hiver,Mostafa Papi,2022-05-30 The Routledge Handbook of Second Language

Acquisition and Individual Differences provides a thorough in depth discussion of the theory research and pedagogy pertaining to the role individual difference ID factors play in second language acquisition SLA It goes beyond the traditional repertoire and includes 32 chapters covering a full spectrum of topics on learners cognitive conative affective and demographic sociocultural variation The volume examines IDs from two perspectives one is how each ID variable is associated with learning behaviors processes and outcomes the other is how each domain of SLA such as vocabulary or reading is affected by clusters of ID variables The volume also includes a section on the common methods used in ID research including data elicitation instruments such as surveys interviews and psychometric testing as well as methods of data analysis such as structural equation modeling The book is a must read for any second language researcher or applied linguist interested in investigating the effects of IDs on language learning and for any educator interested in taking account of learners individual differences to maximize the effects of second language instruction

De Gruyter Handbook of Digital Entrepreneurship Wadid Lamine, Sarah Jack, Alain Fayolle, David B. Audretsch, 2024-06-04

Far reaching technological developments are making a deep impact on societies and economic environments worldwide With the emergence of new digital infrastructures such as artificial intelligence fintech data analytics robotics and nanotech new creative industries still in a state of flux have arisen while others have disappeared at least in their traditional form The intermixing of traditional and new technologies has led to a redrawing of boundaries and an extension of the limits of entrepreneurship out towards industries with hitherto high barriers to entry due to regulatory technological or structural factors These external enablers have led to a democratization of entrepreneurship and a lessening of the obstacles to starting up a company by reducing or eliminating the difficulties inherent in the entrepreneurial phenomenon in its classical configuration such as high resource intensity uncertainty limited time or information asymmetry The De Gruyter Handbook of Digital Entrepreneurship examines the impact of these technological disruptions not only using the existing paradigms but also by re examining our very conception of the entrepreneurial phenomenon in terms of its evolving nature and shifting contours The contributions to this handbook promote the emergence of new theories and conceptions of the entrepreneurial opportunity and process that more fully reflect the realities of the new environment we are living in They will benefit both academics aiming to familiarize themselves with the state of research and theory within topics and subtopics in digital entrepreneurship as well as practicing entrepreneurs and managers aiming to acquaint themselves with leading edge practices and insights in digital entrepreneurship

Initial Coin Offering. New form of corporate financing Simon Kröger, 2022-07-20 Bachelor Thesis from the year 2018 in the subject Business economics Investment and Finance grade 1 0 University of Cologne language English

abstract Since the introduction of Bitcoin in 2009 cryptocurrencies and the blockchain technology behind them have grown in popularity A new funding mechanism has emerged from blockchain technology referred to as Initial Coin Offering hereafter abbreviated as ICO Recently this instrument has been increasingly used to finance blockchain based projects and

represents a new alternative to traditional forms of capital raising such as venture capital financing. Although the investors often receive neither co determination rights nor a share in the profits of the project in return for their financial resources the organizations implementing the ICOs manage to collect millions of euros within a few hours. The venture capital raised through ICOs has grown from around 300 million to around 19.4 billion since January 2017 to June 2018. Due to the rapidly increasing popularity of ICOs the new financing mechanism is the focus of this bachelor thesis. This serves as introductory literature for the reader and gives him an understanding of the new form of corporate financing. In addition it should be examined whether the recent success of the ICOs can be justified. *Digital Content Marketing in the Global Environment. Evaluation of Global Companies in the Chemical Industry* Matthias Hebben, 2021-04-27 Master's Thesis from the year 2019 in the subject Business economics Business Management Corporate Governance grade 2.0 University of Applied Sciences Northwestern Switzerland language English abstract This Master thesis explores the phenomenon of Digital Content Marketing (DCM) by evaluating if content marketing and its tools have a positive impact on global companies in the chemical industry. Rapid globalization and the development of new markets at an increasingly global scale have made DCM more important. However, global companies are facing new challenges like new technological developments and trends and a changing consumer landscape that requires new marketing approaches. Strategies are required to overcome these challenges. Companies adopt DCM techniques and use current techniques to gain competitive advantages. However, there are still companies that have not included digital content in their marketing strategy. Others have difficulties making their marketing content unique and powerful. The main issue is often measuring the effectiveness of one's digital content to determine whether DCM has a positive impact. *Electronics*, 1987 *Control Engineering*, 1986 Instrumentation and automatic control systems *The Chemical Engineer*, 1987 **Thomas Register of American Manufacturers and Thomas Register Catalog File**, 2002 Vols for 1970-71 includes manufacturers catalogs *Thomas Register of American Manufacturers*, 2002 This basic source for identification of U.S. manufacturers is arranged by product in a large multi volume set. Includes products, services, company profiles and catalog file. **CSA Neurosciences Abstracts**, 1999 **Dissertation Abstracts International**, 1985
