## **Varieties Of Secularism In A Secular Age:**

Varieties of Secularism in a Secular Age Michael Warner, Jonathan VanAntwerpen, Craig J. Calhoun, 2010-03-15 What does it mean to say that we live in a secular age? This apparently simple question opens into the massive provocative and complex A Secular Age where Charles Taylor positions secularism as a defining feature of the modern world not the mere absence of religion and casts light on the experience of transcendence that scientific explanations of the world tend to neglect. In Varieties of Secularism in a Secular Age a prominent and varied group of scholars chart the conversations in which A Secular Age intervenes and address wider questions of secularism and secularity. The distinguished contributors include Robert Bellah, Jos Casanova, Nil fer G le William E Connolly, Wendy Brown, Simon During, Colin Jager, Jon Butler, Jonathan Sheehan, Akeel Bilgrami, John Milbank and Saba Mahmood. Varieties of Secularism in a Secular Age succeeds in conveying to readers the complexity of secularism while serving as an invaluable guide to a landmark book.

### **Working with A Secular Age**

Florian Zemmin, Colin Jager, Guido Vanheeswijck, 2016-03-21 Charles Taylor's monumental book A Secular Age has been extensively discussed, criticized and worked on. This volume by contrast explores ways of working with Taylor's book, especially its potentials and limits for individual research projects. Due to its wide reception it has initiated a truly interdisciplinary object of study with essays drawn from various research fields. This volume fosters substantial conversation across disciplines.

**How (Not) to Be Secular** James K. A. Smith, 2014-05-01 How Not to Be Secular is what Jamie Smith calls your hitchhiker's guide to the present. It is both a reading guide to Charles Taylor's monumental work A Secular Age and philosophical guidance on how we might learn to live in our times. Taylor's landmark book A Secular Age (2007) provides a monumental, incisive analysis of what it means to live in the post-Christian present: a pluralist world of competing beliefs and growing unbelief. Jamie Smith's book is a compact field guide to Taylor's insightful study of the secular making that very significant but daunting work accessible to a wide array of readers. Even more though, Smith's How Not to Be Secular is a practical philosophical guidebook, a kind of how-to manual on how to live in our secular age. It ultimately offers us an adventure in self-understanding and maps out a way to get our bearings in today's secular culture no matter who we are: whether believers or skeptics, devout or doubting, self-assured or puzzled and confused. This is a book for any thinking person to chew on.

**Reasoning With Who We Are** Mark Redhead, 2014-04-04 Public reasoning, a manner of democratic deliberation that can generate meaningful conceptions of justice, the collective good and other unifying political values among individuals subscribing to varied and contrasting doctrines, has been a perennial concern among political philosophers from historical thinkers such as Immanuel Kant to contemporary theorists like John Rawls and Jürgen Habermas. In this ambitious study, Mark Redhead explores versions of public reasoning in the works of six of the most important voices in contemporary political theory: Alasdair MacIntyre, Charles Taylor, Hannah Arendt, Seyla Benhabib, Michel Foucault and William E. Connolly. He identifies an important but as of yet unappreciated version of public reasoning, one that provides creative and effective

responses to questions at the forefront of liberal democratic political thought human rights secularity and global governance

Global Secularisms in a Post-Secular Age Michael Rectenwald, Rochelle Almeida, George Levine, 2015-10-16 Global Secularisms addresses the state of and prospects for secularism globally Drawing from multiple fields it brings together theoretical discussion and empirical case studies that illustrate on the ground extant secularisms as they interact with various religious political social and economic contexts Its point of departure is the fact that secularism is plural and that various secularisms have developed in various contexts and from various traditions around the world Secularism takes on different social meanings and political valences wherever it is expressed The essays collected here provide numerous points of contact between empirical case studies and theoretical reflection This multiplicity informs and challenges the conceptual theorization of secularism as a universal doctrine Analyses of different regions enrich our understanding of the meanings of secularism providing comparative range to our notions of secularity Theoretical treatments help to inform our understanding of secularism in context enabling readers to discern what is at stake in the various regional expressions of secularity globally While the bulk of the essays are case based research the current thinking of leading theorists and scholars is also included

Arnason, 2014-04-23 Combining theoretical and empirical research these 12 essays examine the role of religion and its prospects in Europe On the one hand the volume discusses growing Islamic presence in Europe as a reminder of enduring religious pluralism not least in view of the high prominence given to Islamic experience in arguments against over generalised notions of secularisation On the other hand it explores the question of Christian motivated extremism and religious nationalism Against this background the contributors discuss the role of religion in other countries throughout the world including China Japan Russia and the MENA region **The Worlds of American Intellectual History** Joel Isaac, James T. The Case of Tunisia** Amany Abdelrazik, 2016-08-29 Master's Thesis from the year 2015 in the subject Cultural Studies North African Studies grade 1 7 University of Potsdam Institute for Amerikanistik und Anglistik course Anglophone Modernities in Literature and Culture language English abstract The debates over the relationship between a Western secular modernity associated with specific historical practices and secular modernity as a universal category have never lost their momentum as a controversial topic in the discourse of modernization and the nature of both the modern society and individual While according to the

prevailing discourse in the West a universal secularism is based on a universal reason valid to all cultures other Western as well as non Western thinkers and sociologists in particular postcolonial scholars refute the possibility of a singular secular paradigm valid for all times They argue that such a universal paradigm with its Western ideals negates non Western histories and philosophies and thus is a hegemonic model of modernity This paper is a critique of the unveiled secular modern veiled religious traditional divide in the modernist discourse in light of current debates of both postmodernists and neo secularists Following the secularization process in postcolonial Tunisia as part of the state s modernization movement this paper sheds light on the suppression of the non Western religious actor under the narrative of a universal rational modernity in the modern age

*Beyond the Secular West* Akeel Bilgrami,2016-03-22 What is the character of secularism in countries that were not pervaded by Christianity such as China India and the nations of the Middle East To what extent is the secular an imposition of colonial rule How does secularism comport with local religious cultures in Africa and how does it work with local forms of power and governance in Latin America Has modern secularism evolved organically or is it even necessary and has it always meant progress A vital extension of Charles Taylor s A Secular Age in which he exhaustively chronicled the emergence of secularism in Latin Christendom this anthology applies Taylor s findings to secularism s global migration Abdullahi Ahmed An Na im Rajeev Bhargava Akeel Bilgrami Souleymane Bachir Diagne Sudipta Kaviraj Claudio Lomnitz Alfred Stepan Charles Taylor and Peter van der Veer each explore the transformation of Western secularism beyond Europe and the collection closes with Taylor s response to each essay What began as a modern reaction to as well as a stubborn extension of Latin Christendom has become a complex export shaped by the world s religious and political systems Brilliantly alternating between intellectual and methodological approaches this volume fosters a greater engagement with the phenomenon across disciplines

*Security after Christendom* John Heathershaw,2024-02-13 We live in the wealthiest and most heavily defended world in history so why do we feel so insecure In a secular world what does Christian theology have to say about this problem Security after Christendom combines practical examples social scientific research and an ecumenical approach to political theology to answer these questions It argues that Christendom was a plural phenomenon of imagined security communities of East and West whose unravelling continues to have implications for global politics today as dramatically illustrated by Russia s war in Ukraine While notions of a new Christendom are idolatrous and delusional secular imaginaries of national security or the liberal international order are both destructive and unstable True security radical inclusion nonviolent protection and abundant provision is an eschatological phenomenon inaugurated by Christ Security after Christendom is neither found in faithful government nor an exclusive church as polis approach but in relations of tension where the fallen powers are continuously confronted by prophetic practices A post Christendom community expresses its love for the world by seeking its security providentially limiting the disorders of the secular age and offering glimmers of a new earth

**Religious Difference in a Secular Age** Saba Mahmood,2015-11-03 How secular governance in the Middle

East is making life worse not better for religious minorities The plight of religious minorities in the Middle East is often attributed to the failure of secularism to take root in the region Religious Difference in a Secular Age challenges this assessment by examining four cornerstones of secularism political and civil equality minority rights religious freedom and the legal separation of private and public domains Drawing on her extensive fieldwork in Egypt with Coptic Orthodox Christians and Bahais religious minorities in a predominantly Muslim country Saba Mahmood shows how modern secular governance has exacerbated religious tensions and inequalities rather than reduced them Tracing the historical career of secular legal concepts in the colonial and postcolonial Middle East she explores how contradictions at the very heart of political secularism have aggravated and amplified existing forms of Islamic hierarchy bringing minority relations in Egypt to a new historical impasse Through a close examination of Egyptian court cases and constitutional debates about minority rights conflicts around family law and controversies over freedom of expression Mahmood invites us to reflect on the entwined histories of secularism in the Middle East and Europe A provocative work of scholarship Religious Difference in a Secular Age challenges us to rethink the promise and limits of the secular ideal of religious equality The Place of Religion in a Secular Age
