Varieties of Secularism in Asia Nils Ole Bubandt,Martijn Van Beek,2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology

**The Secular in South, East, and Southeast Asia** Kenneth Dean,Peter van der Veer,2018-06-13 This innovative edited collection provides a comprehensive analysis of modern secularism across Asia which contests and expands prevailing accounts that have predominantly focused on the West Its authors highlight that terms like secular secularization and secularism do not carry the same meanings in the very different historical and cultural contexts of Asia Critiquing Charles Taylor s account of secularism this book examines what travelled and what not in the imperial encounter between Western secular modernity and other traditions outside of the West Throughout the book state responses to religion at different points in Chinese and South East Asian history are carefully considered providing a nuanced and in depth understanding of post secular strategies and relations in these areas Particular attention is given to Catholicism in the Philippines Vietnam and Singapore and Hinduism and Chinese religion in Malaysia Singapore and India This theoretically engaged work will appeal to students and scholars of Asian studies anthropology religious studies history sociology and political science
