Individuals with Down Syndrome Sue Buckley, Kelly Burgoyne, Susan Loveall, 2024-01-16 *Direito de Igualdade 2ed* Dimitri Dimoulis, 2023-09-15 Este livro agora em segunda edição atualizada e ampliada expõe o direito constitucional dos oprimidos e explorados ou seja dos grupos minoritários que a Constituição brasileira de 1988 nomeia como mulheres afro-brasileiros jovens idosos pessoas com deficiência trabalhadores rurais índios São analisados exaustivamente vários conceitos centrais: minoria social, igualdade, discriminação. A seguir são interpretadas as normas constitucionais sobre minorias com ênfase no direito de igualdade pouco estudado no Brasil e aqui minuciosamente analisado. O processo constitucional utilizado para examinar as garantias processuais do direito de igualdade com concretude e mediante elaboração de roteiros. Com o objetivo de oferecer uma visão profunda e comparativa da problemática da igualdade e da discriminação foram utilizadas bibliografia e jurisprudência de quinze países incluindo comentários de leis antidiscriminatórias e tradução da lei norueguesa que pode servir como exemplo para uma legislação nacional.

Educating Learners with Down Syndrome Rhonda Faragher, Barbara Clarke, 2013-10-23 For individuals with Down syndrome the extent of the effect of intellectual disability depends largely on the degree of provision of appropriate support and intervention. In *Educating Learners with Down Syndrome* editors Rhonda Faragher and Barbara Clarke have brought together a number of expert contributors whose chapters review recent findings in the field of DS education, highlight promising practices and identify areas for future research. While the emphasis is primarily on the school years, links to early intervention and to life post 16 are made. Chapters are organized into three parts: conceptual overview of issues in learning and teaching; learning mathematics and literacy development. The book is also united by the cohesive themes of assessment, evidence-based practice and inclusive practices. *Educating Learners with Down Syndrome* importantly incorporates the voices of individuals with Down syndrome whose personal narratives add significance to the research mission of the text and demonstrate the authors' inclusive philosophy. Aimed at researchers, teacher educators, higher degree students and policy makers, this book is the first of its kind to provide a compendium of research on educating learners with Down syndrome.

Italian National Identity in the Scramble for Africa Giuseppe Finaldi, 2009 Italy's First African War 1880-1896 pitted a young and ambitious European nation against the ancient Empire of Ethiopia. The Least of Europe's Great Powers rashly assailed Africa's most formidable military power. The outcome was humiliating defeat for Italy and the survival uniquely for any African nation in the years of the European Scramble for that continent of Ethiopian independence. Notwithstanding Italy's disastrous first experience in the colonial fray, this book argues that the impact of the war went well beyond the battlefields of the Ethiopian highlands and reached into the minds of the Italian people at home. Through a detailed and exhaustive study of Italian popular culture, this book asks how far the First African War impacted on the Italian nation-building project and how far Italians were themselves changed by undergoing the experience of war and

defeat in East Africa Finaldi argues for the first time in historiography on the subject that there was substantial support for and awareness of Italy's military campaign and that Empire as has come to be regarded as fundamental in the histories of other European countries needs to be brought firmly into the mainstream of Italian national history This book is an essential contribution to debates on the relationship between European national identity and culture and imperialism in the late 19th century
