*Secular Schooling in the Long Twentieth Century?* Merethe Roos,Johannes Westberg,Henrik Edgren,2024-09-23 The twentieth century process of secularization does not mean that institutional church and Christian ideas were irrelevant for twentieth century societal projects such as the introduction of democracy the improvement of school and education the framing of national identities or in the establishment of welfare states On the contrary this publication is built on the presupposition that secularization runs parallel with the sacralization of the state It can be argued that Christianity has been decisive for how the modern European society evolved in the twentieth century e g concerning how Christian history and Christian values were a part of the new national and social imaginary where re enchantment and re sacralization of the state were central elements In this publication the aim is to highlight the role of Christianity in the twentieth and twentyfirst century welfare state modernization process with the focus on schooling and education A central perspective is the impact of cultural Protestantism during the twentieth century The publication is comparative and will investigate education in Norway Sweden and the Netherlands via chapters on curriculums textbooks politicians and political debates    *Hulpboekje bij het beknopt leerboek der alg. gesch. en bij het leerboek der algemene en vaderlandse geschiedenis* Michael Georg Boer,Jacques Presser,1935    Overzicht der algemeene en vaderl. geschiedenis T.
